

# Enov8 – The most promising DevOps Solution Provider 2018

*Enov8, the Enterprise IT Intelligence company, has been named winner of this year's, 2018, CIOReview "20 Most Promising DevOps Solution Providers".*

SYDNEY, NSW, AUSTRALIA, July 17, 2018 /EINPresswire.com/ -- [Enov8](#), the Enterprise IT Intelligence company, from Sydney Australia, has been named [winner](#) of this year's, 2018, [CIOReview](#) "20 Most Promising DevOps Solution Providers".

A somewhat unique winner, Enov8 goes "against the grain" of providing a "simple" DevOps point solution, and provides a broader "business intelligence" platform that helps organizations run their Enterprise DevOps more effectively through the embracement of methods that help the organization better understand and manage their complex IT landscape and delivery chain operations.

In response to the news, Enov8's Executive Director, Niall Crawford said: "CIOReview selected a great list\* of companies this year. To be selected as the overall winner of this prestigious award was fantastic and I believe it was partly in recognition that the industry is evolving and organizations now need to address the 'DevOps at Scale' problem and, off-course, an endorsement of Enov8's hard work and innovative approach in this space."
