

# Brokers and Distributors Cut Document Hassles and Improve Customer Service with TraceGains PassThru™

*By leveraging TraceGains' PassThru™, documents now automatically follow the supply chain*

WESTMINSTER, CO, UNITED STATES, July 19, 2018 /EINPresswire.com/ -- TraceGains, Inc., the leading compliance software solution, revolutionizing information exchange across the supply chain for food, beverage, and CPG companies, is making it easier and faster for brokers and distributors to do business and generate revenue.

Brokers, distributors, and importers play a vital role in the food and beverage industry by enabling smaller lot purchases.

The demands of FSMA, GFSI, and major customers mean increased documentation, and that can slow business to a snail's pace. Enter TraceGains' PassThru™ ability.

“

We've just started to use the PassThru™ function about two weeks ago, and it has definitely changed my day-to-day.”

*Shirley Thomas, Operations,  
Doehler Group*

“Moving documents can be incredibly complex, now brokers and distributors can use PassThru™ to easily move documents automatically from suppliers to the end customers,” said TraceGains' CEO, Gary Nowacki.

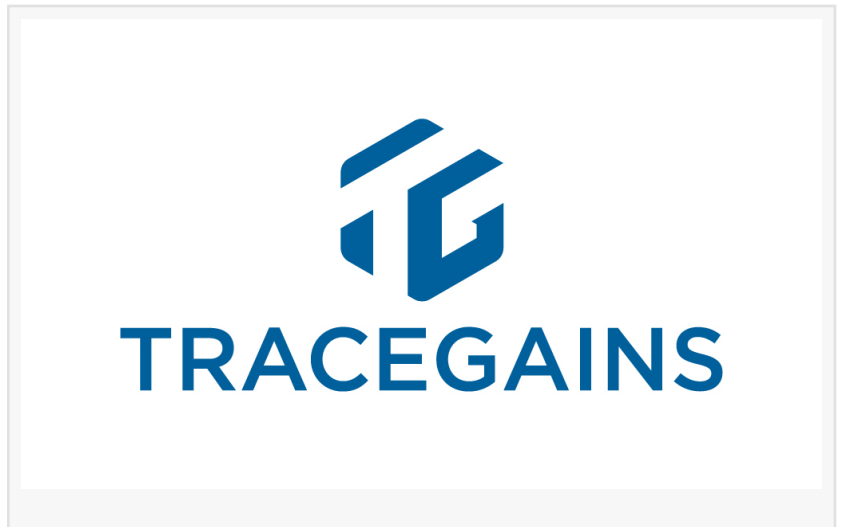

“We went with PassThru™ in order to better serve our customers on a real-time basis,” said Dorothy Willingham, RN, MBA, Quality Manager/Occupational Health Nurse, John R. White Company, Inc.

PassThru™ is made possible by TraceGains' [Supplier Management](#) and [Customer Management](#) solutions. This effective combination allows a user to quickly select all documents that must be passed across the supply chain and distribute them to each of their customers, saving all parties extensive time and money.

“We've just started to use the PassThru™ function about two weeks ago, and it has definitely changed my day-to-day,” said Shirley Thomas, Operations, Doehler Group. “The items we ask the suppliers to provide ahead of time are easily available to us now, which makes our jobs to create business much quicker.”

“PassThru™ allows you to be faster, without sacrificing quality or control,” added Nowacki. “As a broker/distributor, you map connections in TraceGains Network on both your upstream and downstream supply chain and TraceGains does all the rest of the work for you.”
