Key Features

- Provides resistant to peak transients and multiple nominal surges of rating up to 20 kV/10 kA and 10kV/ 5KA.
- Provides maximum level of protection with single hit surge of rating up to 40 kV / 20 kA.
- Provides a superior protection level against high surges in accordance with EN/IEC61643-11:2011 and ANSI C 136.2:2015.
- Designed with specialized thermally embedded MOV technology to offer quick thermal response and increased protection level to the end devices.

Devtech M2M ValueLine – TMOV based SPD (Surge Protection Device)

Devtech M2M has obtained test reports from various 3rd party NABL approved Indian / EPA certified international labs after getting its DSG series SPDs successfully tested as per IEC61643-11:2011 & ANSI C 136.2:2015 at ECM, Italy; Bharat Test House, India & Yadav Labs, India.
