

Canon IT Solutions Inc Japan Joins Beyond Security as Technology Partner

CUPETINO, CALIFORNIA, UNITED STATES, July 27, 2018
/EINPresswire.com/ --

Beyond Security, a leading provider for automated security testing solutions including vulnerability management announced their technology partnership with Canon IT Solutions Inc, a Japan based System integration Solution Corporation that offers Consulting, Construction, Operation management, Maintenance service and IT infrastructure services.

“Beyond Security offers security solutions that are easy to implement and maintain, which can potentially provide high rate of success in the Japanese market. Thus, we would like to expand the scope of our security solution business by joining in partnership with Beyond Security” said Sakiyama Hidefumi, Senior General Manager, Gateway Security Planning Group of Canon IT Solutions. “Also, by combining our extensive knowledge of IT solutions with the superior security product lines of Beyond Security, that offers solutions such as vulnerability management, we can add value to our individual businesses while growing together in the Japanese market” he also added.

“Japan’s security is important to us and it is an honor and a pleasure to be partnering with Canon IT so that together we can provide the most accurate vulnerability tools in Japan,” said Aviram Jenik, Chief Executive Officer at Beyond Security. “Canon IT Solutions is uniquely positioned and well qualified to make this possible and we are very happy to be part of this endeavor”, he added.
