

# Puut Wallet Announces Cryptocurrency-based Crowdfunding and Peer-to-peer Lending

*Puut A/S, announced today that it will launch cryptocurrency-based crowdfunding and peer-to-peer lending starting from November 2018*

COPENHAGEN, DENMARK, August 30, 2018 /EINPresswire.com/ -- Puut A/S, announced today that it will launch cryptocurrency-based [crowdfunding](#) and peer-to-peer lending starting from November 2018, to help entrepreneurs raise crypto-financing.

By supporting cryptocurrency-based crowdfunding and peer-to-peer lending, [Puut Wallet](#) is able to offer entrepreneurs all over the world a unique opportunity to see a long awaited dream come through. At the same time the move is letting cryptocurrencies' holders and mining companies use their idle digital assets to help take disruptive ideas off the ground.

“

BLvx is a stable cryptocurrency that is not subject to the usual volatility inherent to cryptocurrencies”

*Mark Arthur*

“Helping entrepreneurs take their projects to the next level using a stable cryptocurrency is an integral part of the crypto society we are aspiring to.” said Mark Arthur, Founder & CEO at Puut A/S.

Support for cryptocurrencies will be limited in the first place to Euro-pegged [Bitcoin Lvx](#) (BVX). BVX is tied to Euro from inception at a fixed rate of €4,797.15 per BVX, which implies that the exchange rate of BVX follows exactly the moves of the euro exchange rate.

With a circulating supply of 17,023,625 coins and a market capitalization in excess of €80 billion, BVX is poised to become a compelling choice for entrepreneur seeking crypto-financing.

“BLvx is a stable cryptocurrency that is not subject to the usual volatility inherent to cryptocurrencies”. concluded Mr. Arthur

## About Puut Wallet

Puut A/S is a leading blockchain and AI company that offers mobile wallet services, social finance enablement and content sharing as a service to end-users, service providers and merchants alike. Puut A/S is seeking to bring the experience of a traditional cloud network to mobile devices, a global mobile experience to mobile phone users and an operator and bank agnostic approach to mobile wallet services.

## Bitcoin Lvx

Bitcoin Lvx is a Euro-pegged cryptocurrency that provides payments, exchanges and remittance. Bitcoin Lvx's mission is to make Bitcoin spendable by scaling block size for faster transactions with capped fees, to minimize coin volatility and to return to CPU-based and energy-efficient

mining.
