

Wise Agent and Dotloop Integrate to Simplify Real Estate Processes from Inquiry to Closing

Integration saves time by syncing contacts, transaction details and eliminating duplicate data entry

FOUNTAIN HILLS, AZ, UNITED STATES, August 7, 2018 /EINPresswire.com/ -- [Wise Agent](#), a fast-growing software company that helps real estate agents organize and grow their business, today announced a new integration with [dotloop](#)®, a leading platform for simplifying the real estate home buying and selling process.

The integration enables users of both Wise Agent and dotloop to create a transaction loop from a lead or contact directly within the Wise Agent CRM platform. High-level transaction details will be automatically populated into that loop, which eliminates the need for duplicate data entry. The integration also provides seamless syncing of contacts between the applications. Full functionality of the integration:

- * Create a new loop, connect to an existing loop or access dotloop templates from the Wise Agent contact summary page

- * Start a new loop or access existing loops from Wise Agent property pages

- * Import dotloop contacts to Wise Agent

"We are thrilled to partner with dotloop to offer our users a more seamless real estate technology experience," said Brandon Wise, Chief Executive Officer of Wise Agent. "This integration provides agents with the easiest and most efficient way to close a deal from the moment they receive an inquiry."

"By integrating with Wise Agent, we can offer dotloop users another opportunity to streamline processes and get deals done," said Alex Allison, Director of Business Development at dotloop. "We are committed to creating a more connected real estate ecosystem by partnering with the best tools and technology for agents and brokers."
