

AVIDBOTS NEO EXPANDS TO FRANCE'S PARIS CHARLES DE GAULLE AIRPORT

Avidbots continues its march into the air transportation market with a new deployment of its airport cleaning robot into the European Union

KITCHENER, ONTARIO, CANADA, August 3, 2018 /EINPresswire.com/ -- [Avidbots Corp.](#) today announced that Groupe3S has purchased Avidbots Neo, the self-driving, floor cleaning robot, to enhance cleaning productivity and performance for Paris Charles de Gaulle Airport. The purchase was transacted through Avidbots' value-added distribution partner in France, Facilibot.

Conceived and created in the technology region of Waterloo, Ontario, Canada by Avidbots, Neo is a purpose-built, autonomous floor scrubbing robot that integrates state of the art navigation technology with hardware. It is designed for ease of use, longevity, serviceability, safety and high productivity.

Avidbots*

Paris Charles de Gaulle Airport is the second busiest airport in Europe and the most popular airport in France, hosting over 65,000,000 visitors a year. According to Facilibot CEO Alain Castay, this is the first in a series of phased deployments of Neo in multiple airport sites across France. “We are very excited to be working with Groupe3S, as well as Paris Charles De Gaulle Airport, to deliver the benefits that airport cleaning robots can bring to their facilities,” said Castay.

Faizan Sheikh, CEO of Avidbots, said “It is an exciting opportunity to help Groupe3S leverage the power of [robotics](#) to enhance their productivity and to further Avidbots' vision of bringing robots to everyday life to expand human potential. And our partnership with with Facilibot, a leader in facilities management consulting, will expand the opportunities for airport cleaning robots across France.”

The Avidbots Neo is currently deployed on five continents, servicing some of the world's leading shopping malls, airports, education facilities, healthcare centers, manufacturing sites, and other commercial spaces. The company has a 40,000 sq. ft. operations facility with headquarters in Kitchener, ON, Canada.
