

# Cuomo financially exploiting the disabled

*Governor Andrew Cuomo's sinister scheme involves wide-scale exploitation of New Yorkers with disabilities*

ALBANY, NEW YORK, UNITED STATES, August 9, 2018 /EINPresswire.com/ -- [The Jonathan Carey Foundation](#)

through extensive research and hard work has uncovered a corruption scheme in which people with disabilities are being used as if expendable pawns in a chess game. Upwards of 1,000,000 New Yorkers with disabilities are being used for financial exploitation, they are being used by New York State officials and well connected people to enrich themselves. Federal law requires state and federal funds not to be used for

financial exploitation, but where there is lawlessness and basically no regard for the laws anything goes, which appears to be the case throughout New York State. The corruption in New York State is coming out of the woodwork on all levels as everyone is witnessing in the news and this unconscionable corruption must come to light as well.

Gov. Andrew Cuomo must be stopped, he is involved in covering-up thousands of sexual assaults, rapes and deaths of people with disabilities

Here is how this corruption scheme works; it always starts with the money. People with disabilities need services outside of their homes, this is a great need. At the same time these individuals are not valued and treated as equal people or residents of New York. All sorts of actions and inactions surrounding the lack of protecting people with disabilities have proven this discrimination and blatant unequal treatment to be true. To date, hardly any safety and abuse prevention measures are in place to protect our most vulnerable living in residential care, now why is that? It is because people with disabilities are being treated like African Americans were and sometimes still are treated, which is a disgrace and a huge black eye or stain for New

York State.

In most cases, people in the residential care business under a fraudulent not for profit status are enriching themselves and are not providing safe care and services for their residents and they know it. The scheme and actual criminal conspiracy comes in because they have an agreement with the State in which the state will protect them in most cases when their residents are raped, harmed or killed in their care. The wrongfully named Justice Center abuse hotline operated under the authority of [Governor Cuomo](#) makes almost all crimes against the disabled disappear; they are covered-up internally. Most physical and [sexual assault crimes](#), as well as criminally negligent homicides will never be reported to local police or ever criminally investigated. Anyone with a conscience would say, how could this possibly be? The answer is, that the love of money

really is the root of all evil. If a person wants to enrich themselves and is well connected politically in New York State than using disabled people can make you very wealthy, that is until you are caught by the feds. It is important to end revealing this truth that will shock most people in society, in New York State, it costs anywhere from three to seven times the cost to care for a person with a disability then for an inmate in a State correctional facility. You would think people with disabilities would have the very best of care and services, but they do not, as witnessed by almost 8,000 calls to Cuomo's Justice Center abuse hotline every month and 11-13 deaths every day.
