

# The Global Aqua feed market is expected to grow at a CAGR of approximately 10.9% during 2018-2023

*Aquaculture is the fastest growing segment in the global feed manufacturing industry*

HYDERABAD, TELANGANA, INDIA, August 10, 2018 /EINPresswire.com/ -- According to the new market research report by IndustryARC, titled "[Aquafeed Market](#) By Ingredient (Corn, Soybean, Fish Oil); By Type (Natural Feed, Artificial Feed); By Animal Type (Salmon, Mollusks, Catfish, Others); By Additive Products (Amino Acids, Vitamins, Anti-biotic, Others) - Forecast (2018 – 2023)", the market will be enhanced by growth in fish meat consumption due to the increase in the population worldwide.

### Asia Pacific is Expected to Lead the Aquafeed Market

Asia Pacific will lead the Aquafeed Market in the coming years. The growth of the aquaculture industry in China and India due to factors such as availability of raw materials, favorable climatic conditions for aquaculture and cheap labor will accelerate the market growth in Asia Pacific. Europe is expected to have a steady growth of aquafeed in the coming years due to the rising popularity of protein rich food among consumers in the region. North America will also experience higher growth due to the presence of established vendors in the future.

### Selected Regulatory Analysis Done in the Full Report

Carps are the largest application segment in the aquafeed market. They are rich in omega-3 fatty acids and provide protein which is low in fat. The increasing consumer awareness about omega 3 health benefits will augment the demand for carps which, in turn, drives the growth of aquafeed. Mollusks and Crustaceans are the other segments in the market. Crustaceans such as shrimps, lobsters, crabs and mollusks such as oysters are being used as exotic food products. This factor also enhances the demand for the aquaculture feed during the forecast period.
