

InterBlockchain Group proud to launch its cryptocurrency exchange, IBGX.

JAKARTA , INDONESIA, August 13, 2018 /EINPresswire.com/ -- A new and emerging cryptocurrency exchange has recently announced plans to launch their trading platform in Q3 2018.

InterBlockchain Group is proud to announce that it will launch its cryptocurrency exchange, IBGX, in the 3rd quarter of 2018. IBGX aims to inject new synergy to the blockchain community and bring greater awareness on blockchain to markets in South-east Asia.

Equipped with the latest technology, built on an advanced cybersecurity framework, and developed with ease-of-use for users in mind, IBGX is operated by a by a team of professionals 24 hours a day and 7 days a week to provide dedicated user experience to all users. IBGX is led by experienced individuals from the digital and technology sectors in its management team and houses a board of advisors with very good regional exposure in finance, blockchain, technology and commodity.

To promote greater awareness on IBGX, the exchange is offering generous affiliate bonuses. New registrants can expect to receive special tokens as bonuses. At launch, IBGX will offer Bitcoin, Ethereum and XRP trading options with more cryptocurrencies in the pipeline.

The platform aims to offer fast, safe, and easy cryptocurrency exchange services. You can trade cryptocurrencies using the platform. Here are some key advantages of IBGX:

- IBGX allows users to check the balance in exchange at any time. You can check the wallet to make sure they have adequate funds to support withdrawals, for example – something that not all cryptocurrency exchanges allow you to do.
- IBGX will perform periodic checks to ensure all its stored cryptocurrencies are where they're supposed to be "without the risk of double funds."
- IBGX has a support team standing by 7 days a week to answer any questions you might have.
- IBGX is a cryptocurrency exchange that aims to offer secure, fast, and easy trading through an online interface. The exchange supports the most popular cryptocurrencies available while adding more along the way.
