

Rose Cruz & Plasma Pen Pro Are Coming to America to Train & Certify PPP Technicians in Plasma Fibroblast Treatments

Plasma fibroblast treatments are the rage in the beauty and anti-aging world. Knowing how to perform the procedure properly is both an art and a science.

SAN FRANCISCO, CALIFORNIA, USA, August 12, 2018 /EINPresswire.com/ -- World leader Rose Cruz and [Plasma Pen Pro](#) (PPP) will be on the road training and certifying students all across the USA soon.

Learning how to perform beauty enhancing Fibroblast treatments with a Plasma Pen has opened up the door for greater success for many small businesses, with forward-minded owners. The good news for Americans interested in becoming part of the new entrepreneurial storm, is worldwide leader in Plasma Pen and Fibroblast treatment instruction Rose Cruz of Plasma Pen Pro has announced she will be traveling the country to train and certify future Plasma Pen Pro technicians, something sure to bring greater interest to their businesses or to themselves as beauty and anti-aging professionals.

"I am very excited to be going to the USA to teach the secrets of the Plasma Pen and Fibroblast treatments," commented the enthusiastic Rose Cruz. "I know this is something that not only changes the lives of the people who receive the remarkable Plasma Pen work, but also can hugely enhance the amount of income my students make after being officially trained and certified."

According to Cruz, the [Plasma Fibroblast](#) treatments deliver a long list of benefits with highlights like being safe and effective, acting as a totally non-invasive treatment, no surgical techniques are used, the skin isn't cut, and there is no bleeding or bruising.

The treatment itself is used for Wrinkle Reduction, Scar Reduction, Mole Removal, Skin Tag Removal, Tummy Tucks, Eyelid Lifts, Eyebrow Lifts, Lip Line Reduction, and much, much more.

Training dates and registration information can be found on the very informative Plasma Pen Pro website or through contacting the company directly.

Their two-day course focuses mainly on practical, rather than just theory. Rose Cruz states "it is more important to actually work on clients and get to know the client's skin, and how plasma works on that skin, rather than myself or my partner talk about it. When our students work on clients, we ask them to use all their senses to be able to place the carbonized dots correctly and effectively, without any danger to the client. It takes a special set of skills, and those skills is what we work on in class. We like to say that 25% of the course is theory and 75% of the course is practical. That is why our students succeed after taking a plasma pen pro course with us". By looking at their students' posts, reviews and Instagram pages, they are certainly successful.

Plasma Pen Pro (PPP) are developing the next generation of plasma pen to introduce to the market, and will be out in Europe, North America and Australia soon.

If you are interested in a career in Plasma Fibroblast treatments, then visit their website at www.plasmapenpro.com and for more pics and videos of actual client results and students work, please visit www.instagram.com/plasmapenpro

Reviews of Rose Cruz's training has been passionate and very positive:

Carla A. says "I am so grateful I found such an amazing company and trainers in Plasma Pen Pro by Rose. The course they have created offers everything you need to know to achieve amazing results in a safe and effective manner. They are more than happy to offer on-going support which is the cherry on top."

Jordan H. says "Rose and Tino definitely exceeded my expectations. They made me feel very welcomed especially this being my first time in Canada. The class was extremely informative and well thought out. I left feeling confident and ready to bring PP back home to Louisiana. I recommend this class to anyone who is looking to expand their services or start a new skill. Thank you guys for sharing your skill and knowledge with us"

Eyebrow and Eyelid Lift by Plasma Pen Pro (PPP)

Plasma Pen Upper Lip Line Removal by Plasma Pen Pro

The class was extremely informative and well thought out. I left feeling confident and ready to bring PP back home to Louisiana. I recommend this class to anyone who is looking to expand their services or start a new skill. Thank you guys for sharing your skill and knowledge with us"
