

# The global cattle feed market is expected to grow at a CAGR of approximately 3% during 2018-2023

*Asia Pacific will dominate the cattle feed market during the forecast period*

HYDERABAD, TELANGANA, INDIA, August 14, 2018 /EINPresswire.com/ -- According to new market research report by IndustryARC, titled "[Cattle Feed Market](#): By Animal; By Ingredients (Grains, Brans, Others), By Additives (Vitamins, Antibiotics, Others), By End user (Feed, Fodder, others) By Geography - (2018-2023)" the market is driven by growing demand for meat and concerns about the health of cattle.

Asia Pacific dominates the Cattle Feed Market

Asia Pacific will dominate the cattle feed market during the forecast period. Emerging countries in the region such as Vietnam, Japan, India, and China are expected to drive the demand for cattle feed due to growth of disposable income, huge demand for milk and meat. In Europe, increasing consumer concerns and demand for meat products will enhance the growth of cow feed. Brazil is expected to be a growing market followed by Mexico and Canada.

Selected Regulatory Analysis done in the full Report:

The beef segment will dominate the cattle feed market in the coming years. Growing demand for beef products in North America and Southeast Asian countries such as Canada, US, China, and Indonesia elevate the growth of beef cattle. In the beef production systems, cow calf operation units are large when compared to the feedlot operators in the US. This factor will drive the number of feed cattle entering the feedlot operations in the coming years.
