PUNE, MAHARASHTRA, INDIA, August 14, 2018 /EINPresswire.com/ -- MarketResearchNest.com adds "Global [Digital Signage Market](#) 2018 by

Manufacturers, Regions, Type and Application, Forecast to 2023" new reports to its research database. The report spread across 146 pages with tables and figures in it.

Digital signage is a sub segment of signage. Digital displays use technologies such as LCD, LED and Projection to display content such as digital images, video, streaming media, web pages, weather data, restaurant menu, or text. They can be found in public spaces, transportation systems, museums, stadiums, retail stores, hotels, restaurants, and corporate buildings etc., to provide wayfinding, exhibitions, marketing and outdoor advertising.

This report focuses on the Digital Signage in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

Digital signage is a specialized form of video broadcast aimed at a very narrow niche audience in which video or multimedia content is displayed for informational or advertising purposes. A digital sign usually consists of a computer or playback device connected to a large, bright digital screen such as a commercial-grade LCD or plasma display, which is the product discussed in this report.

Digital signage have broad end-use applications, it is widely used in department stores, schools, libraries, office buildings, medical facilities, airports, train and bus stations, banks, auto dealerships and other public venues. It is also commonly used in corporate, employee-facing environments. If the display is connected to a computer, the data on the screen can be updated in real time by means of an Internet or proprietary network connection. The system can employ multiple screens if an extra-large display is required. The increasing demand for digital signage in public and commercial sectors, advancements in technology offerings and rising infrastructure are the key driving factors for the digital signage market.

The worldwide market for Digital Signage is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new study.
