Full report of global coronary stent market is available at: <https://www.omrglobal.com/industry-reports/coronary-stent-market/>

“

Growing menace of heart diseases and technological advancement are augmenting the growth of coronary stent market”  
OMR Analyst

“The coronary stent market is driven by increasing prevalence of heart diseases such as such as Coronary Heart Disease (CHD), Cardiovascular Disease (CVD), Stroke and Coronary Artery Disease (CAD) globally. It is the leading cause of fatalities in men and women globally, giving rise to the adoption of coronary stents. According to American Heart Association, CAD is the most common type of heart disease, globally, and is estimated to remain on

top for the next 20 years. Every year around 3.4 million women and 3.8 million men lose their life due to CAD. Such high incidences of CHDs are driving the global coronary stent market and it is projected to positively influence the demand for coronary heart surgeries, devices and demand during the forecast period.”

The market on the basis of geography is divided among four major regions – North America, APAC, Europe, and Rest of the world. North America is the leading market. North American

market is driven by high healthcare spending, technological advancement including development of latest technology-based stents and adoption of hybrid operating rooms and minimally invasive surgeries. Asia Pacific market is expected to have the highest CAGR amongst all regions during the forecast period of 2018-2023. APAC market is driven by the rising healthcare spending, improving infrastructure & economy, and rising standards of living."

The report covers:

Comprehensive research methodology of Global Coronary Stent market.

This report also includes detailed and extensive market overview with key analyst insights.

Exhaustive analysis of macro and micro factors influencing the market guided by key recommendations.
