ProScribe is a full-service in-person and virtual medical scribe vendor that was founded in 2010 to offset the burden of Electronic Health Record (EHR) documentation requirements. Provider burnout is at an all-time high due to EHR requirements and as a result, providers are spending less time interacting with their patients and more time entering data into their EHR.

ProScribe enables healthcare providers to put their focus

back on their patients and boost their productivity while decreasing burnout. They specialize in recruiting, hiring, and training medical scribes to document into the EHR on behalf of the provider.

With over 1900 medical scribes operating across the nation, ProScribe is the recognized leader in providing the best-trained medical scribes and the most reliable shift coverage in the industry. For the past two years, they have covered 99.8% of all contracted shifts. Furthermore, ProScribe delivers these outstanding services at cost-effective rates.

“I want to congratulate every ProScribe employee that contributed to this outstanding achievement. We have always put our clients first, which is reflected in our outstanding client retention rate. We expect exponential growth over the next 3 years as more health systems recognize the benefits we offer to their providers and as we continue to convert other underperforming scribe programs to ProScribe.” - Toby Mulligan, CEO of ProScribe.

ProScribe utilizes a turnkey program model to provide specialized medical scribe programs for an array of healthcare providers in clinics, healthcare systems, and hospitals from coast to coast.

ProScribe's success is based on creating true partnerships and providing the highest quality medical scribes, reliable coverage and responsive customer service.
