

101VOICE Achieves HIPAA Compliance with Verification from Compliancy Group

101VOICE is pleased to announce that it has achieved full regulatory HIPAA compliance.

SANTA CLARA, CA, UNITED STATES, August 21, 2018 /EINPresswire.com/ -- 101VOICE is pleased to announce that it has achieved full compliance with the federally regulated standards of the Health Insurance Portability and Accountability Act (HIPAA), verified by the HIPAA Seal of Compliance®.

HIPAA is made up of a set of regulatory standards governing the security, privacy, and integrity of sensitive healthcare data, called protected health information (PHI). PHI is any demographic healthcare-related information that can be used to identify a patient. If vendors who service healthcare clients come into contact with PHI in any way, those vendors must be HIPAA compliant.

101VOICE has implemented a full compliance program, adhering to the necessary regulatory standards outlined in the HIPAA Privacy Rule, HIPAA Security Rule, HIPAA Breach Notification Rule, HIPAA Omnibus Rule, PCI, and HITECH. These standards have been heavily vetted against the letter of the law and meet federal NIST requirements. 101VOICE's compliance has been verified by the HIPAA subject matter experts and Compliance Coaches at Compliancy Group.

As a recognized leader in the industry, 101VOICE was recently added to Inc. 5000 list of fastest growing companies in the US. "101VOICE provides "best in class" hosted telephony services that include all the traditional features and functions the market

has come to expect, plus unique and special purpose tools and features to deliver greater and enhanced value, particularly for the healthcare market" said Arman Eghbali, the company's Chief

101VOICE
RELIABLE BUSINESS COMMUNICATIONS

Engineering Officer. "Service quality, service reliability, and exceptional, top-notch customer service are the cornerstones of the value proposition we deliver to each and every 101VOICE customer." The HIPAA Seal of Compliance Verification is a powerful third-party compliance verification standard, issued to organizations that have implemented an effective HIPAA compliance program as outlined by federal HIPAA regulation. "Our team has worked closely and very hard with the Compliancy Group to assure our customer's information and data is secure and in compliance with HIPAA for our healthcare customers and for all our end users" said David Ricci, Vice President, 101VOICE.

101VOICE has completed its HIPAA Compliance implementation program under the guidance of Compliancy Group's team of expert Compliance Coaches®. The important intersection between HIPAA compliance and data security is often lost on IT providers working in the healthcare space. Clients are becoming more aware of the requirements of HIPAA compliance--and forward-thinking providers like 101VOICE choose HIPAA Seal of Compliance Verification to differentiate their services.

HIPAA Seal of Compliance Verification to 101VOICE --a strong differentiator in the ever-growing healthcare IT market."
