Securing the Law Firm Summit 2018: IT Governance to attend

ELY, CAMBRIDGESHIRE, UNITED KINGDOM, August 22, 2018 /EINPresswire.com/ -- Cyber security specialist IT Governance has confirmed its attendance at the 2018 'Securing the Law Firm' event in London, where it will be a strategic sponsor.

Taking place on Wednesday, 19 September 2018, the event, organised by AKJ Associates, is the UK's leading information risk and security summit for the legal sector. It brings together leading industry experts from national and international organisations to guide firms on how to achieve cyber security best practice.

IT Governance will be represented by consultant Stuart Skelly, who will speak on 'Developments since the coming into force of the GDPR on 25 May'. Skelly is a cyber security consultant with a legal background and has helped several law firms prepare for GDPR. Other members of IT Governance's professional services team will also be in attendance giving delegates the opportunity to discuss their specific issues with them.

With clients demanding higher levels of cyber security from third parties more than ever before, the event will look at how cyber security best practice can realistically be achieved within the current structure of the legal sector and what law firms can do to demonstrate security to their clients.

IT Governance is the leading global provider of IT governance, risk management and compliance solutions, with a special focus on cyber resilience, data protection, ISO 27001 and cyber security. It is committed to helping law firms protect themselves and their clients from the perpetually evolving range of cyber threats. With many years' experience in the legal sector, IT Governance can help law firms better understand the cyber security risks they are facing, ensure that their defences are robust and help them through the many challenges ahead.

To find out how IT Governance can help you with your cyber security and data protection requirements, including your GDPR (General Data Protection Regulation) compliance project, visit the IT Governance website, email servicecentre@itgovernance.co.uk or call +44 (0)333 800 7000.
