

IT Governance achieves BS 10012 certification

ELY, CAMBRIDGESHIRE, UNITED KINGDOM, August 23, 2018 /EINPresswire.com/ -- Ely, United Kingdom, 23 August 2018 – IT Governance has become one of the first in the UK to achieve BS 10012 certification, the personal information management standard.

With many organisations requiring suppliers to demonstrate compliance with legislation concerning, among other things, data protection, IT Governance demonstrates that its system is aligned to industry best practice and that it is committed to protecting personal information.

Alan Calder, IT Governance's founder and executive chairman, said: "The BS10012 provides a formal level of assurance to our customers, and partners, that when we say we are GDPR compliant, we have taken the necessary steps to develop and implement a best practice Personal Information Management System that has been independently audited as meeting a newly established British Standard."

IT Governance works with organisations on BS10012 projects and is a leading provider of GDPR expertise and solutions. It supports organisations of all sizes in tackling their GDPR compliance projects through [certified training courses](#), [books](#), documentation toolkits, staff awareness training, compliance tools and consultancy.
