

Registration Opens for the 12th Annual Mobile Deployable Communications Conference

SMi Group Reports: Registration is now open for the Mobile Deployable Communications 2019, taking place in Warsaw on the 31st January and 1st February.

LONDON, UNITED KINGDOM, August 21, 2018 /EINPresswire.com/ -- SMi Group is delighted to announce the 12th annual [Mobile Deployable Communications conference](#), will take place in Warsaw on the 31st January and 1st February 2019. This highly anticipated event will explore key drivers causing the growing demand for flexible, protected, and interoperable CIS capabilities.

Registration is now live! With the biggest [Early Bird discount available until 28 September. Save £400](#) and secure your place now at: <http://www.mobiledeployable.com/einpr>

With the ability to effectively communicate driving the tempo of the modern battlespace, the need to know 'where I am, where my friends are and where the enemy is' remains fundamental for the success of any operation.

This critical requirement has become ever more vital as militaries deploy in degraded environments to tackle asymmetrical threats and electronic warfare technologies which risk disrupting the allied ability to effectively operate.

Key topics include: SatCom on the move, software defined radios, ground terminals and network-enabled capabilities, standardising C4ISR networks, building tactical CIS networks and maximising data telemetry resiliency, operational feedback, research and development and more.

Hear presentations from an unrivalled military and industry speaker line-up, including:

The Host Nation Opening Address: 'CIS Requirements for the Polish Mission Network'

Covering:

- How the Polish Mission Network is structured and ambitions to integrate it to the FMN
- Current C2 structures and how requirements for battlespace management are changing
- Interoperability standards among NATO partners and how the Polish Armed Forces are working to ensure continuity of function
- Capability planning and future equipment structures
- Building a network that is adaptable to the modern era. cyber and resiliency considerations
- Flexible architecture designs and future ambitions for the programme

Presented by: Colonel Robert Drozd, J6, Polish Armed Forces

But, this is just a snapshot of what's in store for Mobile Deployable Communications 2019. The event brochure is coming soon and can be requested from the event website:
