

Revolution Precrafted Breaks Through North America; Secures \$210M deal to Build Luxury Villas in California

MAKATI, METRO MANILA, PHILIPPINES, August 22, 2018 /EINPresswire.com/ -- Revolution Precrafted, a global supplier of designer and limited edition prefab homes, pavilions and other related verticals, has bagged a \$210Million contract with Imperial Heights LLC to supply ultra-high luxury residential villas in San Bernardino County, California, USA.

This marks the prefab company's first project in North America. The United States is the 17th international market for the company, which is embarking on a strategic global expansion.

"This is an important milestone for the company as we try to expand our global presence. We have enjoyed great success in Asia, Europe and Latin America and we are proud that through our extensive partners network, we have finally broken through the United States, which is one of our primary target countries," said Revolution Precrafted Founder and CEO Robbie Antonio.

Launched in December 2015, Revolution Precrafted redefined prefabricated homes by collaborating with 80 of the world's preeminent architects, designers and artists including Zaha Hadid, Jean Nouvel, Lenny Kravitz, Daphne Guinness to name a few.

It was officially recognized as a unicorn company, valued at over \$1 billion in 2017.

The agreement stipulates that Revolution will supply the limited edition villas while Imperial Heights LLC will be responsible for both land and site development.

"This is one of the most premium developments we have. We will build 60 posh villas with a minimum size of 450 square meters," Antonio said.

Imperial Heights LLC CEO Tru Lee meanwhile said "we are proud to partner with one of the best real estate companies in the world. We are confident that they will deliver the design and quality we want in order to attract the more affluent homebuyers from California."

The villas will be built on a 24 acre property and will be part of the Imperial Heights Estates, a gated luxury residential development in the San Gabriel Mountains, San Bernardino County, California.

Located in Southern California, San Bernardino is the fifth most populous county in the state and one of the most populous in the whole of United States.

Antonio said that each villa will have five to six bedrooms in total and will be valued at \$3.5 million each," Antonio added.

"We will finalize the designs of the villas and will be able to start development by the first quarter of 2019," he added.
