

Empower Software Technologies Enters Strategic Partnership With Storelocal

Partnership brings advanced technology and interface capabilities to the self-storage industry

MURRIETA, CALIFORNIA, UNITED STATES, August 24, 2018 /EINPresswire.com/ -- Empower Software Technologies, provider of Storage Commander property management software, has partnered with self-storage industry co-op Storelocal to offer customers the most advanced technology and interface capabilities.

Empower Software Technologies serves self-storage facilities throughout the world with its industry leading property management software platform, Storage Commander. Storelocal, a cooperative comprised of self-storage owners that leverages innovative technologies and partnerships to bring best-in-class service offerings to its members, has added Storage Commander to its new Tenant™ suite of technology products and services.

Through the partnership, Empower Software Technology users will have access to Storelocal's website technology and local SEO services, while co-op members benefit from the accounting, reporting and customer management features included in Storage Commander. Leveraging the Global Distribution System (GDS), Tenant™ gives prospective renters the power to search, explore facility amenities, fully execute all agreements, select and purchase products and services, and move in, all without leaving the client's domain, twenty-four hours a day.

“

Our partnership provides an end-to-end customer service experience, from finding a self-storage facility to unattended move-ins and account management”

Bruce Heverly, Storelocal

Storage Commander features include corporate and individual account control, precise accounting procedures, along with an open API that allows for seamless integration

with third-party vendors. The platform also offers both web/cloud-based and standalone platforms of its latest software version (V5) and is known for its fast connectivity, stability, scalability and security.

“We are excited to work with Storelocal in bringing our customers the marketing component they have been asking for,” said Tom Smith, CEO of Empower Software Technologies. “We are equally

pleased that Storelocal chose our software to add to their prestigious list of current vendors and we look forward to servicing their constituents and providing them with not only our software, but also our industry leading customer service."

"Storage Commander brings the functionality and business enterprise capabilities that Storelocal customers need to effectively operate their facilities," said Bruce Heverly, Storelocal's Chief Marketing Officer. "Our partnership provides an end-to-end customer service experience, from finding a self-storage facility to unattended move-ins and account management."

Both Storage Commander and Storelocal will exhibit at the upcoming Self Storage Association 2018 Fall Conference & Trade Show, September 4-7 at Caesars Palace in Las Vegas, NV. Attendees are invited to visit Booth 301 for an experiential demonstration of the Tenant™ technology suite, including the SecurGuard® Smart Entry System from Janus International, a one-of-a-kind security and access control system. Equipped with Storelocal's Tenant™ technology, and powered by GDS (Global Distribution System), the system allows customers a fully automated experience through which they can find, rent and easily access a self-storage facility and their individual unit from their mobile device.

About Empower Software Technologies, Inc. / Storage Commander

Empower Software Technologies (www.storagecommander.com) is a leading provider of property management software. IT engineers Thomas V. Smith, CEO and U.S. veteran, and Jeff Power, CIO, developed the proprietary Storage Commander software that now reaches users throughout the U.S. Canada, Central America, South America, Australia and New Zealand.

About Storelocal

Storelocal (www.storelocal.com) is a co-op created and owned by independent operators. We develop technology, partnerships and brand services to increase the profitability of our members. In just over four years, we have grown to more than 1100 facilities, including 14 of the top 50 operators, making Storelocal the 4th largest self-storage owner entity in the world. Storelocal is proud to introduce Tenant™, an end-to-end, fully automated solution focused on consumer experience. "Tenant™ – Making technology easy and unassisted move-ins a reality"

About Janus International
