

GSM Antenna Market (2G, 3G, LTE, 5G) by Manufacturers, Countries, Type and Application, Forecast to 2023

MarketResearchNest.com adds "Global GSM Antenna Market 2018 by Manufacturers, Countries, Type and Application, Forecast to 2023" new to its research database.

PUNE, INDIA, August 27, 2018 /EINPresswire.com/ -- MarketResearchNest.com adds "Global [GSM Antenna Market](#) 2018 by Manufacturers, Countries, Type and

Application, Forecast to 2023" new reports to its research database. The report spread across 132 pages with tables and figures in it.

Antennas are specialized transducers that convert RF wave fields into alternating current (AC) or vice-versa. There are two basic types of antennas, a receiving antenna, which intercepts RF energy and delivers AC to electronic equipment, and the transmitting antenna, which absorbs AC from electronic equipment and generates an RF field. Similarly, like any wireless communication system, mobile communication is also dependent on GSM antennas. GSM services are in constant need of custom antenna designers to help them keep up with customer demand and to introduce new innovations and functions to the marketplace.

This report studies the GSM Antenna market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the GSM Antenna market by product type and applications/end industries.

The constant changes in GSM technologies will be one of the major factors that will have a positive impact on the global GSM antenna market during the forecast period. The constant changes in GSM technologies will drive the GSM antenna market during the forecast period. Antennas must be replaced to support the newest GSM systems to meet their spectrum and frequency necessities. This will increase the need for upgradation of new technologies every five to seven years and the GSM antennas will witness increased demand to meet different consumer requirements. Also, with the forthcoming 5G technology in 2019, the sale of GSM antennas will increase in the market. These continuous changes in GSM technology is a solid driver for the GSM antenna market.

The Americas will be the major revenue contributor to the GSM antenna market throughout the forecast period. High penetration of internet-enabled devices, rise in mobile data traffic, and increasing availability of faster internet connections will drive the GSM antenna market in the Americas.

The global GSM Antenna market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023. The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing

India and Southeast Asia regions.

North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of GSM Antenna. Europe also play important roles in global market, with market size of xx million USD in 2017 and will be xx million USD in 2023, with a CAGR of xx%.

Market Segment by Companies, this report covers

Comba Telecom

KATHREIN-Werke

Laird

Advanced RF Technologies (ADRF)

Cobham Wireless

CommScope

Bird Technologies

Ericsson

Huawei Technologies

ZTE

Market Segment by Regions, regional analysis covers

North America (United States, Canada and Mexico)

Europe (Germany, France, UK, Russia and Italy)

Asia-Pacific (China, Japan, Korea, India and Southeast Asia)

South America (Brazil, Argentina, Colombia)

Middle East and Africa (Saudi Arabia, UAE, Egypt, Nigeria and South Africa)

Market Segment by Type, covers

2G

2G/3G

3G

LTE

5G

Market Segment by Applications, can be divided into

Smartphone

Dumbphones
