

# Norman Filter Company receives the AS9100D with ISO 9001 certification

---

BRIDGEVIEW, ILLINOIS, UNITED STATES OF AMERICA, August 29, 2018 /EINPresswire.com/ -- [Norman Filter Company](#) (NFC), a manufacturer of high-end [Aerospace](#) and Defense filtrations, proudly announces that they have been certified under [AS9100D](#) with ISO 9001:2015 as of August 6, 2018. Norman Filters previously earned certification under AS9100C with ISO 9001:2008 in 2015 and has been audited and registered by the NSF-ISR since October 2006.

The AS9100 standard supplements the ISO 9001 requirements with conditions needed for work with the United States Department of Defense (DOD), NASA, and Federal Aviation Administration (FAA). AS9100 certification, which is recognized internationally as the Quality Management System standard for manufacturers and suppliers to the aviation, space, and defense industries. Achieving the AS9100D certification proves that Norman Filters' quality processes and continuous improvement methodologies meet the high industry standards.

"The AS9100D certification and NFC's quality management system are essential to the success of our company. Achieving, maintaining and continually improving the QMS is at the foundation of our culture and operations, providing transparency, repeatability, and reliability in our processes and product. This achievement is a clear reflection of the team's dedication to detail and providing a superior product and service that meets or exceeds our customers' expectations."  
-Phil Netznik II President of Norman Filter Company

Norman Filters have passed rigorous design and testing requirements for many U.S. Defense and Aerospace end applications. Our filters are currently in operation on the following programs and applications: International Space Station (ISS), Orion Crew Capsule, B-52 Bomber, Private Sector's Space Transport Service Rockets and Crew Capsules, Ground Support Equipment for both the Public and Private Industries, Shipboard on U.S. Navy Fire Suppression Systems, Oil and Gas - Blowout Preventer Assemblies, and many more.

## About Norman Filter Company

Norman Filter Company was established in 1978 as a manufacturer of hydraulic filters and filtration systems for the industrial and aerospace markets. Over time, design and testing capabilities have been added to provide maximum value to our customers. Norman Filters offers a diverse filtration product line including high, medium and low pressure inline and T-Type standard filtration solutions. In addition, Norman Filters provides custom design and manufacturing solutions to meet our customer's unique needs. All product is designed and manufactured at our Bridgeview, IL facility.
