With a macro-economic perspective, healthy economic growth across geographies is expected to create business opportunities over the forecast period. Increasing penetration of air suspension system into passenger cars and commercial vehicles is projected to turnout as a primary factor supplementing demand for air spring. Over the past decade, sales of luxury vehicles has registered an upsurge, both in developing and developed nations, the preference for luxurious vehicles is not just limited to passenger cars, but also there has been significant demand for luxurious buses and performance trucks. Many OEMs equip these categories with novel air suspension system and thus turn out to be consumers of air springs. The global air spring market is projected to witness increasing adoption of electronically controlled systems; this trend is expected to continue throughout the forecast period. However, consumption of non-electronically controlled systems is expected to remain dominant.

Global Air Spring market size will reach xx million US\$ by 2025, from xx million US\$ in 2017, at a CAGR of xx% during the forecast period. In this study, 2017 has been considered as the base year and 2018-2025 as the forecast period to estimate the market size for Air Spring.

The following manufacturers are covered in this report: Continental Firestone Industrial Products Company Hendrickson USA
Wabco Holdings
AccuAir Suspension
Dunlop Systems and components
Mando Corp
BWI Group
Tata AutoComp Systems
VB-Airsuspension
VDL Weweler-Colaert

GCC Countries, Turkey, Egypt, South Africa, Rest of Middle East and Africa

The study objectives are:

- •IIo analyze and research the global Air Spring status and future forecast,involving, production, revenue, consumption, historical and forecast.
- To present the key Air Spring manufacturers, production, revenue, market share, SWOT analysis and development plans in next few years.
- •IIo segment the breakdown data by regions, type, manufacturers and applications.
- To analyze the global and key regions market potential and advantage, opportunity and challenge, restraints and risks.
- To identify significant trends, drivers, influence factors in global and regions.

- To strategically analyze each submarket with respect to individual growth trend and their contribution to the market.
- To analyze competitive developments such as expansions, agreements, new product launches, and acquisitions in the market.

In this study, the years considered to estimate the market size of Air Spring:

History Year: 2013 - 2017

Base Year: 2017 Estimated Year: 2018 Forecast Year: 2018 - 2025

This report includes the estimation of market size for value (million USD) and volume (K Units). Top-down and bottom-up approaches have been used to estimate and validate the market size of Air Spring market, to estimate the size of various other dependent submarkets in the overall market. Key players in the market have been identified through secondary research, and their market shares have been determined through primary and secondary research. All percentage shares, splits, and breakdowns have been determined using secondary sources and verified primary sources.

For the data information by region, company, type and application, 2017 is considered as the base year. Whenever data information was unavailable for the base year, the prior year has been considered.
