

Catania's Patent Grant is an Invention That Will Change the World

PHILADELPHIA, PA, USA, August 30, 2018 /EINPresswire.com/ -- Around the world, 1.3 billion people have no access to electricity. More than 600 million are located in sub-Saharan Africa, and more than 300 million are in India. No access to power means no access to many things we in the western world take for granted. For example access to a television, a computer and a basic education.

[Michael Ross Catania](#), the CEO of LSC International Trading, has been working to solve this issue. Moreover, in August 2018, Michael Ross Catania's invention for a "Combined Rollable Solar Panel and Rollable Digital Screen" was approved by the USPTO. LSC International Trading LLC is very proud and excited about this patent grant and its potential to change the world. This invention is the key to bringing education to the over 1.3 billion people that lack electricity. People who once had no access to an education can now have unlimited access.

Michael Ross Catania Patent

"How many potential Einstein types are there within the 1.3 billion people, that now will have an opportunity to get a universal education?", said Catania. "I am thrilled to be making the world a better place."

“

Who knows...Maybe this invention will provide an education to the person that will cure cancer. Wasting all that talent is a true sin."

Michael Ross Catania

With over 300 Inventions and Industrial Designs in the UK, Michael Ross Catania has a bright future and looks forward in reaching his lifetime goal of 5,000 inventions.
