

# California Construction Defect Center Is Now Appealing to A Homeowner in Recently Built Subdivision in California To Call Them If Their Home Builder is Ignoring Roofing-Siding or Plumbing Issues

WASHINGTON, DC, USA, September 7, 2018 /EINPresswire.com/ -- The California Construction Defect Center is now appealing to a new homeowner in a single-family subdivision or townhouse community anywhere in California to call them anytime at 866-714-6466 if their home builder is ignoring serious roofing, siding, plumbing issues or if builder repair punch list items were never completed. The group does not want one single new homeowner in California to unnecessarily get stuck with thousands of dollars in repairs the home builder should pay for as they would like to discuss anytime. <http://California.ConstructionDefectCenter.Com>

According to the group, "We know home builders are frequently very attentive to single family home buyers prior to people purchasing the home builder's home. Sadly, after the buyer or buyers move into the new house or townhouse they may discover numerous problems-and the builder may suddenly be not that attentive. We are in the business of seeing to it that a homeowner does not get stuck in a defective new single family home or townhouse anywhere in California. If your home builder is no longer returning you phone calls about builder punch list repair items or much more serious construction defect issues, please call us anytime at 866-714-6466 and we will try to get you some help. We are advocates for homeowners in California and our services are free." <http://California.ConstructionDefectCenter.Com>

The California Construction Defect Center Would Like to Hear from Homeowners in New Subdivisions or Townhouse Developments in California If They Have the Following Types of Issues:

- \* The stucco on the home's exterior has extensive cracking.
- \* Water leaks because of improperly installed or defective trim board or fascia.
- \* Wood flooring that has cracked or splintered.
- \* Improperly installed windows that create water leaks.
- \* Windows that do not open or close properly.
- \* Exterior doors that were improperly installed that lead to water leaks.
- \* Defective roofs that were improperly flashed or installed and or that have defective roofing material.
- \* Severe foundation cracks or foundations that are not level.
- \* Single family homes in newer subdivisions or townhouse that now have mold because the building was not properly protected during the framing/drywall process.
- \* Improper exterior caulking of exterior siding that leads to water leaks and mold.

In California, the statute of limitations for construction defects may last four years after the issuance of the certificate of occupancy. However, the California Construction Defect Center is urging homeowners in subdivisions not older than four years to call them anytime at 866-714-6466 if they have construction defect issues that the home builder failed to fix, or now refuses to fix.

“

If your California home builder is no longer returning you phone calls about builder punch list repair items or much more serious issues, please call us anytime at 866-714-6466 ”  
*California Construction Defect Center*

The group's free services are available to homeowners in newer subdivisions or townhouses throughout California in communities such as Los Angeles, San Diego, Pleasanton, Irvine, Temecula, Sacramento, Moreno Valley, San Jose, Riverside, Palm Springs, San Juan Capistrano, Tustin, Oxnard, Chula Vista, Indio, Elk Grove, Fresno, and Santa Clarita. <http://California.ConstructionDefectCenter.Com>

The California Construction Defect Center will select one or two of California's leading construction defect law firms to

examine serious homeowner complaints about defects for a legal opinion. The attorneys may need to do inspections to determine the seriousness of a construction defect or defects at no cost to the homeowner. <http://California.ConstructionDefectCenter.Com>
