

OnlyOneMY Announces Plans For Launch

Kuala Lumpur-based trophy supplier has launched their new website to display their line of custom trophies, designed in acrylic, crystal, pewter or metal.

KUALA LUMPUR , MALAYSIA, September 3, 2018 /EINPresswire.com/ -- [OnlyOneMY](#) and Eddy Bo are pleased to announce the launch of their new website and online catalogue featuring trophies. The experienced team is ready and willing to help customers with the trophy selection and design process. The unique process of working with clients makes selecting and designing the perfect trophy simple, fun and easy. The customization is free and personalized specifically for the customer's needs. Customers can choose from the style, materials and message.

A representative of the company explains, "We have our own expert designers ready to create the perfect trophy for your needs. The design is only limited by your imagination. There is no minimum order either for corporate entities or for individuals. We take orders for pretty much any order quantity. That means if you only require 1-10 units of trophies, we are able to fulfil that as well. However, it goes without saying that the more trophies you order, the more attractive the price of the trophies becomes."

"Selecting a trophy is a simple process" he continues. "Our live chat and customer support team understands that picking a trophy from thousands of options can be overwhelming. We communicate with our clients to quickly shortlist to three to five trophies, taking into consideration the budget, trophy type and design specifications. This leads to a hyper-personalized catalogue to suit the needs of the specific client."

When picking a trophy supplier in Malaysia, four factors are obvious. The quality of the awards and trophies is perhaps the most important. The look and feel of the trophy, as well as the material used to create the trophy, are part of the selection process. The customization and engraving skills of the trophy supplier is the next quality test. Customers must be able to depend on the reliability of the supplier. When an event is occurring on a particular date, the trophy needs to be there. The final factor in choosing a supplier is the budget available. The Kuala Lumpur firm seeks to reach a balance between quality and affordability.
