

ChineseABC - Chinese Learning Solution with Impressive Results

ChineseABC - a contextualized video based brand new Chinese learning app. It fully engages users to understand the application and relevance of the context.

FUZHOU, FUJIAN, CHINA, September 5, 2018 /EINPresswire.com/ -- ChineseABC has released the new 1.1.3 version on September 4, 2018, adding innovative features that enhance the user experience. ChineseABC is a Chinese learning app for beginner to intermediate level students.

ChineseABC has integrated the scientific memory curve into the new professional review function. Users are able to consistently review and practice their Chinese, with impressive results guaranteed over the period of 15 days.

The new comment feature allows users to leave comments, suggestions, questions, and concerns under videos. Native Chinese speakers from the ChineseABC team will respond to all comments and suggestions, enhancing the interactive experience of the app. Any constructive criticism will also be taken into account to continuously improve on the user experience.

The Chinese language has gained popularity in recent years due to the advantages of learning a language that can open up lucrative business opportunities in the largest global economy. Bridging the gap between two cultures is a desirable skill, and an increasing number of people have taken to learning this language and its rich history.

ChineseABC version 1.1.3 is now available to download on the App Store.

About ChineseABC
