

Cloud24x7 announce Cyber-Security Operations Center in Michigan

FORT LAUDERDALE, FLORIDA, USA, September 4, 2018 /EINPresswire.com/ -- Fort Lauderdale, FL (Sep 5th, 2018): Cloud24x7, a Cybersecurity leader in IT Security, Cloud Security & Managed Services announced today the launch of its state of the art Cyber-Security Operation Center (CSOC) in Michigan, United states which will help companies to deal with compliances and help customers of all sizes to defend themselves against security breaches.

The CSOC expands Cloud24x7 security services availability in North America, and responds to the growing demand for cybersecurity breaches and risk management concerns. Having our Global SOC in Ahmedabad, India and US based SOC in Michigan will help the company to handle disaster recovery solutions for Security Operations.

With the increasing demand of Cybersecurity compliances, guidelines & shift in the threat landscape the industry is noticing more sturdy hackers & more advanced cyber-attacks, with the growing complexity of IT (IOT, Cloud & virtualization), and a global shortage of qualified cybersecurity professionals means that companies of all sizes can benefit from Cybersecurity services from Cloud24x7. Customers will benefit from the most advanced data breach prevention includes incident response management & threat hunting type of services that until recently were only available to high end enterprises.

Cloud24x7 CSOC service offerings includes:

- Security Assessment, Risk Management & Compliance Highlights
- Firewall Configuration Analysis, Policy Management, Configuration checks, Hardening & Remediation.
- Threat Intelligence, Breach Detection, Incident response, Change Management and 24x7x365 monitoring (Discover, Detect and Defend)
- Reactive Security which offers SOC team analysis and correlate events from multiple source logs through a highly advanced Security Information and Event Management (SIEM) solution SecurePlus. Threat intelligence with the ability to correlate and respond to important systems including firewalls, servers, and other key systems.
- Vulnerability Management and Penetration Testing
- Phishing Campaigns, Employee Awareness & Trainings.

Cloud24x7 has a well-earned reputation for cutting edge, next generation capabilities in cyber security services and proprietary "cyber security technologies," and I'm excited to announce our US base SOC center providing high end Cybersecurity solutions for our partners and customers said Jacob Thankachen, founder and CEO of Cloud24x7. "And now we have the state of art Security Operations center in Michigan which help our company have the resources and breadth to build advanced capabilities to fight against Global Cyberwar.

ABOUT CLOUD24X7:

Cloud24x7 is a leading technology solution provider of threat intelligence-driven Cyber-security solutions exclusively focused on protecting clients from cyber-attacks. We have pioneered an integrated approach that delivers a broad portfolio of cyber security solutions to organizations of varying size and complexity. Our solutions enable organizations to define their cyber defenses

to prevent security breaches, detect malicious activity in real time, prioritize and respond rapidly to security breaches and predict emerging threats. The solutions leverage our proprietary technologies, processes and extensive expertise in the information security industry.
