ARLINGTON, VA, UNITED STATES,  
September 10, 2018 /

[EINPresswire.com/](http://EINPresswire.com/) -- STS International,

Inc., a leading end-to-end solutions provider in Command, Control, Communications, Computers, Cyber-Defense, Combat Systems, Intelligence, Surveillance, and Reconnaissance and a Veteran-Owned business, is proud to announce its selection as a strategic subcontractor to MTEQ on the [U.S. Army Rapid Acquisition of Materials for Prototyping \(RAMP\)](#) Contract. RAMP is

a \$192 million multiple-award IDIQ contract that develops, prototypes, evaluates, and provides worldwide technical and field support of advanced Research and Development (R&D) and specialized sensors for Night Vision and Electronic Sensors Directorate (NVESD) and other agencies.

“

The RAMP Contract is a valuable addition to our contract portfolio. STS has two decades of experience providing technical and field support for advanced sensor technology.”

*Dave Morgan, Vice President  
STS International*

“The RAMP Contract is a valuable addition to our contract portfolio. STS has two decades of experience providing technical and field support for advanced sensor technology. We are looking forward to engaging in this work with MTEQ and achieving mission success for the U.S. Army,” says Dave Morgan, Vice President of STS

International, Inc.

## About STS International

Founded in 1992, STS International is a U.S. Veteran Owned business with over twenty-five years of experience providing secure solutions and services to the federal government in the areas of Engineering and Integration, Enterprise and Logistics Management, Simulation and Training, and Business and Professional Services. We have focused our efforts in the domains of C6ISR, Surveillance and Situational Awareness, IT and Cyber, Robotics and Unmanned Systems, Medical, and Emerging Markets.

Our goal at STS is to achieve mission-success for our clients in Defense, Homeland, and National Security by dedicating ourselves to the principles of innovation, agility, and excellence. What makes STS unique is our ability to swiftly meet our client’s needs while sustaining an organization with global operations and a mature infrastructure to support enterprise, end-to-end solutions. Our solutions maximize best value, mitigate risks, and optimize operational efficiency.

## About MTEQ

MTEQ provides high-end engineering and manufacturing services, offering full-spectrum

capabilities spanning all phases of the product lifecycle, from research and development, system engineering, design, and specialty engineering, prototyping and production, testing, and field support (CONUS and OCONUS).
