

STS International Wins Air Force and Navy Medical Modeling and Simulation Training Program Award

STS International Wins Air Force and Navy Medical Modeling and Simulation Training Program Subcontract Award in Partnership with the Salus Group

STS International is very proud to team with SALUS and PowerTrain on the AFMMAST Program.”

*Dave Morgan, Vice President
STS International*

ARLINGTON, VA, UNITED STATES, September 12, 2018 /EINPresswire.com/ -- [STS International](#), Inc., a leading end-to-end solutions provider in Command, Control, Communications, Computers, Cyber-Defense, Combat Systems, Intelligence, Surveillance, and Reconnaissance and a Veteran-Owned business, is proud to announce it has won the strategic contract with PowerTrain for the Air Force Medical Modeling and Simulation Training Program (AFMMAST), in partnership with the Salus Group.

The mission of the AFMMAST Program is to identify, evaluate, validate, procure, and use advanced learning technologies and methodologies to improve Air Force and Navy medical education and training for healthcare teams and patients to improve healthcare outcomes. STS International, is committed to achieving mission success for the AFMMAST Program.

“STS International is very proud to be working with SALUS and PowerTrain on the AFMMAST Program. Medical training is a personal passion of mine. It is very exciting to coalesce our skill sets across the areas of military operations, simulation technology, and medical training and education. We are ready to provide the Air Force and Navy with what they need to achieve mission success,” says Dave Morgan, Vice President of STS.

Together, STS International and SALUS will work to execute AFMMAST’s vision to improve medical education and training by employing competency-based training activities using multimodal modeling and simulation technologies, advanced blended learning, and sound educational strategies. Collectively, our leaders have over 77 years’ experience in medical modeling, simulation, and training as well as military operations.

About STS International

Founded in 1992, STS International is a U.S. Veteran Owned business with over twenty-five years of experience providing secure solutions and services to the federal government in the areas of Engineering and Integration, Enterprise and Logistics Management, Simulation and Training, and Business and Professional Services. We have focused our efforts in the domains of C6ISR, Surveillance and Situational Awareness, IT and Cyber, Robotics and Unmanned Systems, Medical, and Emerging Markets.

Our goal at STS is to achieve mission-success for our clients in Defense, Homeland, and National Security by dedicating ourselves to the principles of innovation, agility, and excellence. What makes STS unique is our ability to swiftly meet our client’s needs while sustaining an organization with global operations and a mature infrastructure to support enterprise, end-to-end solutions. Our solutions maximize best value, mitigate risks, and optimize operational

efficiency.

About Salus Group

The SALUS Group is a management consulting company located in San Antonio, Texas (headquarters) and Orlando, FL specializing in Healthcare, and Systems Engineering for the entire lifecycle of Medical Simulation Programs: Management, Training and Technology.

About PowerTrain

PowerTrain was founded in 1994 as a woman-owned, small business. Since then, we have supported thousands of government and commercial projects on a wide variety of human performance initiatives.
