

# STS International, Inc. Wins Strategic Subcontracting Award with ACET for the Defense Technical Information Center

*STS International, Inc. Wins Strategic Subcontracting Award with ACET for the Defense Technical Information Center Information Analysis Center Award Contract*

ARLINGTON, VA, USA, September 12, 2018 /EINPresswire.com/ -- STS

International, Inc., a leading end-to-end solutions provider in Command, Control, Communications, Computers, Cyber-Defense, Combat Systems, Intelligence, Surveillance, and Reconnaissance and a Veteran-Owned business, wins subcontracting award with Adams Communication & Engineering Technology (ACET) for Defense Technical Information Center (DTIC) Information Analysis Center Multiple Award Contract (IAC MAC). The multiple-award, Indefinite Delivery/Indefinite Quantity (ID/IQ) contract has a \$28 billion ceiling and a maximum nine-year period of performance.

“

STS International, Inc. is eager to provide our unique strengths DTIC customers,”  
*Dave Morgan, Vice President  
STS International*

STS will be part of the ACET team which will provide DTIC with research, development, test, and evaluation (RDT&E) and other research and development (R&D) related

analytical services. Customers supported will include the U.S. Army, Navy, Air Force, Marines Corps, and other Government and Department of Defense (DoD) customers.

“STS International, Inc. is eager to provide our unique strengths DTIC customers,” says Dave Morgan, Vice President of STS, “with over 25 years of experience supporting complex, scientific and technical requirements for the DoD our diverse team of professionals are exceptional at delivering rapid response solutions across multiple domains and disciplines.”

## About STS International

Founded in 1992, STS International is a U.S. Veteran Owned business with over twenty-five years of experience providing secure solutions and services to the federal government in the areas of Engineering and Integration, Enterprise and Logistics Management, Simulation and Training, and Business and Professional Services. We have focused our efforts in the domains of C6ISR, Surveillance and Situational Awareness, IT and Cyber, Robotics and Unmanned Systems, Medical, and Emerging Markets.

Our goal at STS is to achieve mission-success for our clients in Defense, Homeland, and National Security by dedicating ourselves to the principles of innovation, agility, and excellence. What makes STS unique is our ability to swiftly meet our client’s needs while sustaining an organization with global operations and a mature infrastructure to support enterprise, end-to-end solutions. Our solutions maximize best value, mitigate risks, and optimize operational efficiency.

About Adams Communication & Engineering Technology
