

# Groundbreaking assistive technology allows you to use Dragon speech recognition in public without anyone overhearing you

*Verbally Transcribe & Communicate in Private, Anywhere with this Assistive Technology*

SAN FRANCISCO, CALIFORNIA, USA, September 5, 2018 /EINPresswire.com/ -- Talk Technologies revolutionary assistive microphones allow you to use speech recognition and verbally communicate in public without anyone overhearing you.

Recently we have seen a dramatic increase in people embracing this technology at work and in the classroom. Used in conjunction with speech recognition software it affords them the ability to work freely, anywhere, without having to worry about disturbing others or being overheard.

[Steno SR](#) is the only speech recognition microphone that provides complete voice privacy and noise cancellation. By isolating the users voice it enables you to privately transcribe and communicate while simultaneously eliminating all background noise thus ensuring crystal clear recognition. It's ideal for classroom settings, open offices, meetings, commuting, or anywhere you require voice privacy and noise cancellation. This assistive technology can be used with any speech recognition software including Dragon 15 and is compatible with all modern devices including smartphones, laptops, tablets and recorders.

Advantages:

- Industry's most accurate voice isolation, noise cancelling, speech recognition microphone
- Eliminates all ambient or background noise ensuring a crystal-clear sound signal
- Lightweight, affordable and road worthy durability, guaranteed

Worlds best noise cancelling voice isolation microphone

- Removable hands-free option
- Compatible with all speech recognition software including Dragon Naturally Speaking
- No start up time or learning curve, simply plug in and go

Talk Technologies has been providing speech solutions to schools and industry for over 30 years and offer non-profit discounts.
