

# Brad Deflin of Total Digital Security to Present in a Series of Conferences hosted by Bank of America – Merrill Lynch

*The conferences will focus on cybersecurity education for investors and businesses.*

WEST PALM BEACH, FL, UNITED STATES, September 6, 2018 /EINPresswire.com/ -- Total Digital Security, a provider of digital security technologies for individuals and businesses, announced today that its founder, Brad Deflin, will be presenting at a series of September investment conferences focusing on cybersecurity.

Analysts at Bank of America Merrill Lynch have acknowledged that cybersecurity is one of the top global risks today – and that it should also be one of the top areas of focus for investors. To mitigate the threat, the bank is offering a series of events in Florida featuring cybersecurity experts including members of law enforcement, who will provide critical insights on the current state of cybersecurity risks to individuals, families, and businesses, and the emerging technologies designed to protect valuable data from cyber attacks.

“

I'm looking forward to partnering with Bank of America - Merrill Lynch in our shared mission to advance cyber security education and solutions that protect customers from the risk of cyber threats.”

*Brad Deflin*

Brad Deflin will join other featured speakers at conferences to be held at the following locations:

- Epping Forest Yacht Club, Jacksonville, FL: Wednesday, September 11, 2018
- Pensacola State College, Pensacola, FL: Friday, September 13, 2018 at
- Broward Center for the Performing Arts, Ft Lauderdale, FL: Tuesday, September 25, 2018
- West Palm Beach Marriott, West Palm Beach, FL: Wednesday, September 26, 2018

Mr. Deflin's presentation, "Cybersecurity -- An Issue for the Boardroom, Break Room, and Living Room", will discuss the regulatory aspects of information sharing, and explain numerous forms of cyber crime such as ransomware, cyber blackmail, denial of service attacks, IoT hacking, social engineering, pretexting, brute-force attacks, mobile hijacking, and cloud cracking. He will also offer solutions for protecting homes and businesses from these evolving forms of crime, such as virtual private networks and encryption, device protection and monitoring, and offer general advice and guidance in how to best guard yourself and your business. Slides utilized for these events and webcast, if applicable, will be made available for a limited time on the company's website at [www.totaldigitalsecurity.com](http://www.totaldigitalsecurity.com)

## About Total Digital Security
