2018 Diode LED Catalog – www.DiodeLED.com/catalog-viewer/:

"We are honored to receive several coveted Product Innovation Awards by Architectural SSL Magazine," said Randy Holleschau, CEO of Elemental LED. "The recognition by our industry peers is a testament that the talented engineering and technology team at Elemental LED are leading the way in solving industry wide challenges that face consumers. We are thrilled that Diode LED products and services have won these prestigious awards."

The patented INFINILINE® X LED Strip Light (<https://www.diodeled.com/infiniline-2-120v-led-strip-light.html>) is a complete and robust solution for large-scale and commercial applications. The driverless LED strip light design brings intuitive, labor saving installation to any continuous indoor/outdoor environment up to 200 feet. INFINILINE X is UL Listed to meet brand-new UL standards; making this flexible LED Strip light one of the safest and most advanced LED Lighting products on the market; giving you peace of mind with high performance. This unique plug-and-go lighting solution works well with any architectural or landscape project with cost-effective, hassle-free installation.

Diode LED recently unveiled the ENVI-Light™ (<https://www.diodeled.com/envi-light.html>) color tunable mirror for professionals in the styling industry, film and television, and Luxury home and hospitality. Using araya5 tunable color LED lighting from Lumenetix® and Starphire glass, the mirror resists glare to mix the high-performance lighting colors and can be tuned to different color temperatures that accurately reflect natural and artificial lighting. The award-winning mirror is the product of a partnership with world-renown lighting technology manufacturer, LUMENETIX, and award-winning industrial designer, Frank Friedman.

About Elemental LED:

Our patented INFINILINE X LED Strip Light is a complete and robust solution for large-scale and commercial applications.

ENVI™-Light is a tunable light mirror that previews your true beauty in any light before you arrive to your destination.

Elemental LED , founded in 2008, is a leading North American based engineering and technology company with offices in Nevada, California and the United Kingdom. We manufacture an extensive high-quality portfolio of lighting, power supplies, and controls. We specialize in superior patented linear, accent, and task LED lighting featuring unparalleled CRI and R values with flawless, and vibrant high-fidelity color rendering. We are proud to be America's largest provider of low voltage linear LED lighting, inspiring lighting professionals with our innovative technology, unmatched quality, and best-in-class customer experience.

About Architectural SSL Product Innovation Awards:

The Architectural SSL Product Innovation Awards (PIA) determine and honor the most innovative LED/ solid-state luminaires and fixtures on the market, while also recognizing the companies behind the components that make up these light sources. The PIA program also recognizes leaders in categories ranging from those conducting cutting-edge R+D, to those helping in the development of standards as well as those pushing to make solid-state lighting a truly sustainable technology. Construction Business Media, headquartered in Chicago, is publisher of Architectural Products, Illuminate and Architectural SSL magazines.
