scaffolding caster wheels manufacturer

WENZHOU, ZHEJIANG, CHINA, September 7, 2018 /EINPresswire.com/ -- Scaffold tower provide people a safety aloft work condition. Most of time we need move heavy weight scaffolding tower when people change the working place. The [scaffolding casters](#) enable user move scaffolding tower easy.

General speaking Due to different design of scaffold tower, we have produce below 5 different mount type scaffolding casters.

1. Scaffolding casters with snap lock pin-----Fix the wheels on the tower pipe with lock pin, easy to use but can not leveling adjustment

2. [Aluminum scaffold casters wheels](#) with spring locking --- self lock spring pin design on the stem enable lock wheels on the tower pipe fix hole position easy to use. And due to aluminum stem design the total weight much light than steel stem. They are usually use on aluminum scaffolding tower.

3. [Adjustable leveling jack scaffold wheels](#)-----adjustable leveling leg allow scaffold tower can work on uneven ground. Meanwhile Our T shaped locking adjustment nut help fix wheels on scaffolding foot pipe.

4. Scaffold caster wheels with hollow stem----This design allow scaffolding foot insert into the scaffold wheels stem and Lock with snap lock pin. Very easy to use.

5. Regular swivel plate heavy duty casters with adjustable leg.

Before purchase scaffolding castors please study you own tower design, figure out total safety work weight and pipe dimension firstly.
