# IntelliBoard Announces White-Label Options for Clients

Personalized branding options now available for IntelliBoard clients and partners for the IntelliBoard website and notifications services.

MONROE, CT, UNITED STATES, September 11, 2018 / EINPresswire.com/ -- IntelliBoard is delighted to announce personalized branding options for the IntelliBoard interface. Clients wishing to white-label can now do so quickly and easily for both the website portal and the corresponding reports/email notifications sent to their respective recipients. Branded domains are also available, making a fully seamless white-labeled experience for users. For clients using the IntelliBoard sub-account feature, these branded options cascade to all accounts and user access.

Tonya Riney, IntelliBoard's VP of Client Services stated, "White-labeling is a critical sub-component for many clients and IntelliBoard partners. The option to add a logo, tag lines, and colors connects the user to our IntelliBoard client in wonderful ways - ways that improve identity, marketing and ultimately, sales."
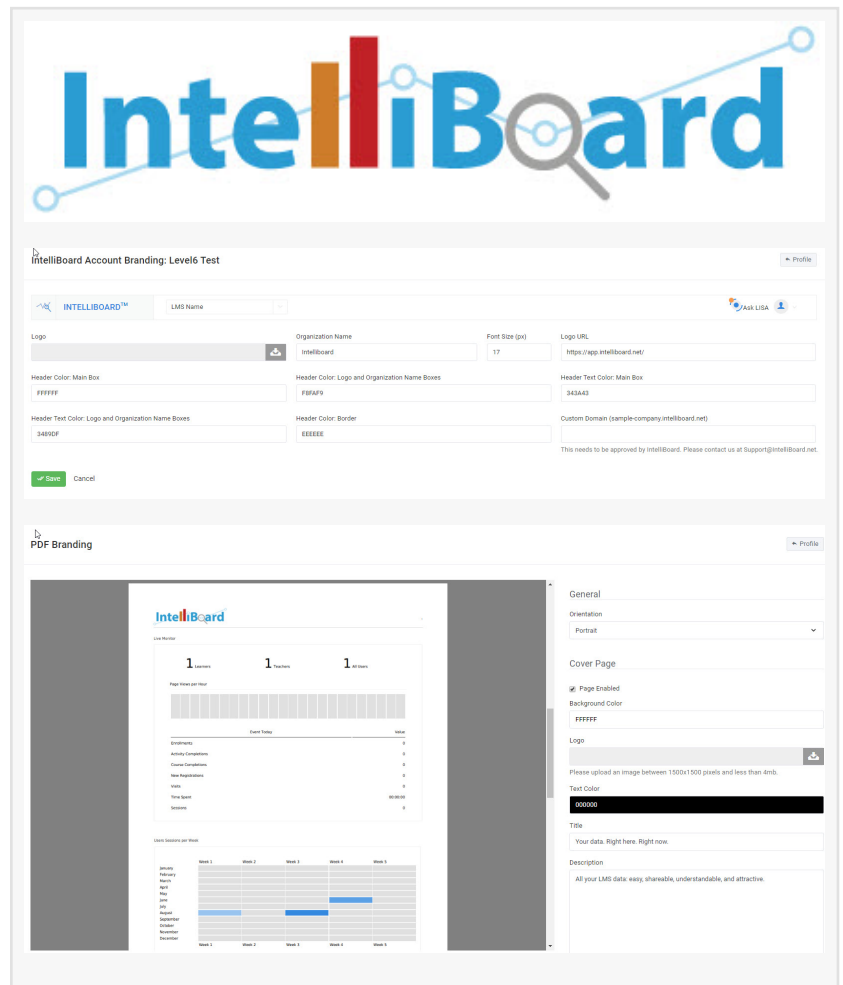

The benefits of white-labeling "allows...focus on your business' core competency," as noted by Drew Gainor, Forbes, 2014. "Prepackaged solutions provide an opportunity to trust the experts in the specific space...and avoid making [possible mistakes]."

Folks using the Moodle LMS and IntelliBoard have access to an expanded, configurable administrator dashboard that includes significant new features: LISA, an AI assisted natural-language search tool; configurable monitors that display reports and analytics based upon your desired data; CEND, the Conditional Event Notifications Dashboard; and Permit, the ability to build and configure dashboards based on specific permissions.

Using the IntelliBoard tools will bring educational decision makers closer to the metrics that influence how learning is delivered, how learning happens, the tools that facilitate learning, and overall learner performance. Specific tools within IntelliBoard help to highlight high- and low-performing learners, tracking, compliance measurement, competencies, and engagement.

About IntelliBoard

"

The option to add a logo, tag lines, and colors connects the user to our IntelliBoard client in wonderful ways - ways that improve our client's identity, marketing and ultimately, sales."
Tonya Riney, VP of Client Services, IntelliBoard

IntelliBoard.net offers analytic and reporting services to education communities and institutions who use the Moodle™ LMS. IntelliBoard extracts the statistical data collected in Moodle™ and presents this rich data on a single dashboard in the form of easy-to-read, aesthetic, and printable charts, graphs, and formatted reports. We strive to be the premier analytics dashboard for Moodle™ LMS users. Feel the strength of empowered learning with our purposefully built analytics for education and training. Our mantra: provide the best instantly-available, most-simplified point-and-click access to your Moodle™ LMS data to inform your educational business decisions.
