

ScImage and Cardiac Imaging Partnership Announced

Providing Anywhere Access for Remote Reading and Reporting

LOS ALTOS, CA, USA, September 7, 2018 /EINPresswire.com/ -- Los Altos, CA – September 7, 2018 – ScImage, Inc. is pleased to announce the formation of a partnership with Cardiac Imaging, Inc. at the American Society of Nuclear Cardiology's 23rd Annual Scientific Session. ScImage, an industry leader in comprehensive enterprise imaging and reporting, is leveraging its unique Cloud architecture to support acquisition from even the most remote locations. Cardiology images are available immediately for anytime, anywhere review and reading.

"CII has brought together advanced nuclear medicine technology with convenient care through our turnkey mobile and in-house cardiac PET solutions," said Rick Nassenstein, President, Cardiac Imaging. "The Cardiac Imaging and ScImage partnership provides our physicians a HIPAA compliant, encrypted platform for real-time access to viewing images from any desktop computer, tablet, laptop, or cell phone."

Providing seamless access and multimodality display and viewing, PICOM365 by ScImage presents the data in an efficient environment with virtualized image post-processing and structured reporting. With customizable image presentation and reporting statements, physicians can efficiently and effectively communicate the outcomes of this gold standard test in detecting early coronary artery disease.

"ScImage's comprehensive PICOM365 Cloud PACS supports the unique requirements of this workflow, combining ECG stress data and cardiac PET scanning," said ScImage's founder and

CEO, Sai Raya, Ph.D. "With a core focus on high-level security standards, ScImage data exchange protocols deliver fast, secure and customized workflows to support this cutting-edge partnership."
