Extreme Cream is a pungent cross between Extreme OG and Cookies & Cream. This strain develops deep purple colas dusted with trichomes and emits a strong, earthy aroma that is creamy on the nose and very smooth on the palate. Expect traditional indica effects alongside heady

euphoria, appetite stimulation, and couch lock.

Bill Levers of Beard Bros. Pharms said, "We're super stoked to be part of this. Our choice to collaborate with Heavy Hitters was an easy one. Their quality, consistency and potency is something we strive for in our work and we've always respected what they do. Their team is able to keep all the unique effects and nuanced taste profiles we worked so hard to develop in our Extreme Cream strain. We can't wait to share this collaboration with all our favorite dispensaries and fans."

The limited release one-gram cartridges will be dropping in mid-October at select cannabis distributors across the state of California. Check [HeavyHitters.co](#) for availability at release.
