'Vociferous Sly' is the brainchild of interdisciplinary artist Assemblist, another of the young omni-creative talents to emerge from the outer reaches of South London. Whether winning Chester P's five word freestyle competition, or receiving support from the likes of eleven-time Grammy Awards winner Pharrell; this is a multifaceted musician who embodies the DIY punk aesthetic – composing, writing, recording and producing all his own music and visuals.

Currently working on his debut mixtape 'The Trials and Tribulations of Vociferous Sly', Assemblist and his alter-ego are destined to turn heads with freeform artistic licence and their innovative approach to storytelling and sound.
