“The mesothelioma attorneys we suggest have well over a decade of producing the best possible mesothelioma compensation results in New England and they make house calls. In other words, the mesothelioma attorneys we suggest go to visit the diagnosed person in their home. The in-home visit is vital because it allows the lawyers we suggest a face to face conversation with the person with mesothelioma about how and or where they were exposed to asbestos. The reason this information is so vital is that this specific information about asbestos exposure becomes the basis for a mesothelioma financial

compensation claim for this rare cancer as we would like to discuss at 800-714-0303.”

If the Vermont Mesothelioma Victims Center had some vital compensation tips for a person who has just been diagnosed with mesothelioma in Vermont they would be:

\* "Try to list as many places where you were exposed to asbestos along with dates and times. The more specific the information the better. As an example-'as a mechanic I frequently replaced auto and truck brakes on domestically made vehicles from January 1969 until April of 1975. During this same time, I also replaced auto and truck clutches.'

\* "Do you know the names or whereabouts of coworkers who may have witnessed your exposure to asbestos? Knowing how you were exposed to asbestos and the names of people who witnessed your exposure is vital information the attorneys we suggest will need if you want to receive the very best possible financial compensation for this rare cancer caused by asbestos exposure as we would like to explain anytime at 800-714-0303."
