

Shipping Platform ParcelABC Expands Activities in France and Italy

LONDON, ENGLAND, UNITED KINGDOM, September 14, 2018 /EINPresswire.com/ -- Online shipping platform [ParcelABC](#) is further expanding its activities in Western Europe. From now on, shipments can be made to and from France and Italy as well as domestically. The platform is actively expanding this year with plans to launch activities in China and Russia in the near future.

ParcelABC is already able to collect and deliver packages from any country across the globe and offers a large selection of services to and from its established markets of the United Kingdom, Spain, Poland, Lithuania, Ukraine, Australia, Germany and the United States.

According to Andrius Balkūnas, one of the founders of the ParcelABC online shipping platform, France and Italy were not chosen by chance.

“Our goal is to offer a full range of [parcel delivery](#) options in the largest European and global markets. These countries are among the fastest growing e-commerce destinations in Europe. In France, which has a population of almost 70 million, there are more than 120,000 active e-commerce sites. For example, Amazon, which is one of the most popular e-commerce sites in the world, attracts over 15 million unique French visitors per month. In turn, Italy is the largest market in Europe for luxury goods such as Armani, Versace, Prada, Gucci and others,” says Mr Balkūnas.

ParcelABC’s unique system makes it possible to send and receive packages quickly and at an affordable price without leaving your home – all you have to do is enter the addresses of the sender and the recipient. By entering the shipping code, you can track the entire process online. The price depends on, where the sender and the recipient are located as well as the weight, dimensions of the parcel and the speed of service required.

The ParcelABC shipping platform brings together large and small courier companies around the world and is one of the largest courier networks in the sector.
