Incident and Emergency Management Software Market 2018, Market Growth, Market Share, Market Size Forecast to 2023

Various solutions are offered by incident and emergency management software, such as disaster recovery, situational awareness solution and geospatial solution.

HYDERABAD, TELANGANA, INDIA, September 17, 2018 /EINPresswire.com/ -- Incident and Emergency Management (ICM) Software is the software program that describes the activities of an organization to identify, analyze and deals with wide range of hazards to prevent future re-occurrence. Various solutions are offered by incident and emergency management software, such as disaster recovery, situational awareness solution and geospatial solution. Disaster recovery solutions hold the largest market size which is increasing in market growth. Industries are rapidly adopting this system software for keeping their business operations unaffected from disasters. But still incident and emergency management software is facing the biggest challenge in getting adopted by industries.

The major challenge for incident and emergency management software is lack of awareness and knowledge among the industries about its usage and solutions of this technology. The extant of outdated systems and infrastructure of incident and emergency technology raised concerns for government. To approach this issue, vendors and government are upgrading and innovating the outdated systems and incident and emergency management technology. IBM is now working with government and public safety organizations to implement advanced public safety technology solutions named as C3 solution, this C3 system engage immediately in response, recovery and mitigation without any need of access to any special documentation and system. Hexagon safety and security solutions are improving the quality, accuracy and availability of any critical information and increasing the performance and productivity which leads to people's safety worldwide. They are also producing advanced products and organizing services related campaigns to provide sufficient training about the usage and benefits of this technology. Now industries are adopting this technology for securing their industries by implementing this technology's system.

The applications for IcM are found in surveillance system, safety management system, weather monitoring system, traffic management system and so on. Installing surveillance systems is much beneficial for industries as it reduces theft, gives employee's protection, and builds security. Safety management systems delivers safety of essential business operations. A safer work place is created by successful implementation of effective safe management system. North America is dominating the incident and emergency management software market all over the world. North America is the most endangered region to the natural calamities and disasters, such as floods, earthquake, and cyclones and so on. Asia-Pacific region, such as India and China are rapidly adopting this technology to secure their industries for future concern.

Up gradation and innovation of the outdated system software and infrastructure of emergency management, and advancements of technologies is increasing the market growth of incident

and emergency market software. Incident and emergency management software integrated with AI and IOT will improve its technology and brings out easy-to-use collaborative solutions that speeds us communication, tracks progress, and simplifies management of the incident.

Incident and Emergency Management software market report is segmented as indicated below:
1. Incident And Emergency Management Software market – Solution
1.1. Disaster Recovery
1.2. Situational Awareness
1.3. Others

2. Incident And Emergency Management Software market – Services
2.1. Support and maintenance
2.2. Design and integration
2.3. Consulting
2.4. Others

3. Incident And Emergency Management Software market – Simulation
3.1. Traffic Simulation
3.2. Hazard Propagation
3.3. Incident And Evacuation
3.4. Others

4. Incident And Emergency Management Software market – System
4.1. Surveillance System
4.2. Traffic Management System
4.3. Safety Management System
4.4. Report weather monitoring System
4.5. Seismic Warning System
4.6. Others

5. Incident And Emergency Management Software Market – Functional Areas
5.1. Energy And Utilities
5.2. Manufacturing
5.3. Aviation
5.4. Healthcare
5.5. Transportation and Logistics
5.6. Others

6. Incident and Emergency Management Software Market – By Market Entropy
7. Incident and Emergency Management Software Market – By Geography

Companies Cited / Interviewed / Referenced
Alert Technologies
Crisisworks
ESRI
Eccentex
Emergeo
Haystax Technology
Hexagon
IBM
Intermedix Corporation
Microsoft cybersecurity Protection

Cylance
Verizon Enterprises
Company 20+

What can you expect from the report?
The Incident and Emergency Management software market Report is Prepared with the Main
Agenda to Cover the following 20 points:

1. Market Size by Product Categories
2. Market trends
3. Manufacturer Landscape
4. Distributor Landscape
5. Pricing Analysis
6. Top 10 End user Analysis
7. Product Benchmarking
8. Product Developments
9. Mergers & Acquisition Analysis
10. Patent Analysis
11. Demand Analysis (By Revenue & Volume)
12. Country level Analysis (15+)
13. Competitor Analysis
14. Market Shares Analysis
15. Value Chain Analysis
16. Supply Chain Analysis
17. Strategic Analysis
18. Current & Future Market Landscape Analysis
19. Opportunity Analysis
20. Revenue and Volume Analysis

Frequently Asked Questions:

Q. Does IndustryARC publish country, or application based reports in Incident and Emergency
Management software market?
Response: Yes, we do have separate reports and database as mentioned below:

1. North America Incident and Emergency Management software market (2018-2023)
2. South America Incident and Emergency Management software market (2018-2023)
3. Europe Incident and Emergency Management software market (2018-2023)
4. Asia Pacific Incident and Emergency Management software market (2018-2023)
5. Middle East and Africa Incident and Emergency Management software market (2018-2023)
6. Consulting Services of Incident and Emergency Management software market (2018-2023)
7. Traffic Simulation in Incident and Emergency Management software market (2018-2023)
8. Seismic Warning System in Incident and Emergency Management software market (2018-
2023)
9. Aviation Market in Incident and Emergency Management software market (2018-2023)

Q. Does IndustryARC provide customized reports and charge additionally for limited
customization?

Response: Yes, we can customize the report by extracting data from our database of reports and annual subscription databases. We can provide the following free customization

1. Increase the level of data in application or end user industry.
2. Increase the number of countries in geography or product chapter.
3. Find out market shares for other smaller companies or companies which are of interest to you.
4. Company profiles can be requested based on your interest.
5. Patent analysis, pricing, product analysis, product benchmarking, value and supply chain analysis can be requested for a country or end use segment.

Any other custom requirements can be discussed with our team, drop an e-mail to sales@industryarc.com to discuss more about our consulting services.
