

Global Metabolomics Biomarker Market Research and Forecast 2018-2023

The Global Metabolomics Biomarker Market, Size, Share, Market Intelligence, Company Profiles, Market Trends, Strategy, Analysis, Forecast 2018-2023

INDORE, INDIA, September 27, 2018 /EINPresswire.com/ -- According to the OMR analysis, the global metabolomics biomarker market is growing at a significant rate during 2018-2023.

Metabolomics are profiling of metabolites in biofluids, cells and tissues, which are routinely applied as tool for biomarker discovery. Due to innovation and developments in informatics and analytical technologies, enables in expanding metabolomic analyses and to understand the systems-level effects of metabolites. The report provides detailed and insightful chapters on market overview, key findings, parent market analysis, strategic recommendations, market estimations, market determinants, key company analysis, market insights, [company profiling](#), market segmentation, geographical analysis and analyst insights.

“

Innovative development in informatics and analytical technologies are boosting the global metabolomics biomarker market”

OMR Analyst

Metabolomics enables the advancement in the current understanding, diagnosis and treatment of several health conditions, which includes cancer, cardiovascular and neurological disorder. It enables in identifying pathophysiological processes and mechanisms of disease and management of targeted disease. The metabolomics biomarkers in tissue samples or biopsies, categorize and

stage the progression of cancers, which enables in making appropriate decisions for treatment. The abnormal growth of cells in colon or rectum causes colorectal cancer, which is third commonly diagnosed cancer. The extensive application of metabolomics biomarker in colorectal cancer detection is driving the metabolomics biomarker market. According to American cancer society, about 27,150 men and 23,110 women died from colorectal cancer in 2017. It is estimated about 95,520 new cases of colon cancer and 39,910 cases of rectal cancer diagnosed in the US.

The market on the basis of geography is divided among four major regions – North America, Asia-Pacific (APAC), Europe, and Rest of the world. North America is expected to dominate the metabolomics biomarker market and have highest market share during the forecast period 2018-2023. The market is dominating due to high product commercialization rates, development in [healthcare sector](#) and increasing use of biomarkers in drug discovery and development. Asia-Pacific shows high growth rate in metabolomics biomarker market due to increasing demand for improved pharmaceutical products, which are generated from emerging economies such as India and China, are significant contributing in the growth of the market.

The report covers:

Comprehensive research methodology of global metabolomics biomarker market.

This report also includes detailed and extensive market overview with key analyst insights.

Exhaustive analysis of macro and micro factors influencing the market guided by key recommendations.

Analysis of regional regulations and other government policies impacting the global metabolomics biomarker market.

Insights about market determinants which are stimulating the global metabolomics biomarker market.

Detailed and extensive market segments with regional distribution of forecasted revenues.

Extensive profiles and recent developments of market players.

About Orion Market Research

Orion Market Research (OMR) is an Indian research company known for its crisp and concise reports. The company is equipped with an experienced team and young brigade of analysts. The company provides quality syndicated research reports, [customized research reports](#), Company profiling, consulting and other research-based services. OMR provide global and regional market reports of various domains such as healthcare, energy, IT, chemicals, and automobiles. OMR provide a 360-degree view of the market with parametric analysis, key market insights, key findings, statistical forecasts, competitive landscape, extensive segmentation, key trends, strategic recommendations and detailed company profiles.
