“

The global renal biomarker market is growing due to increase in R&D funding for kidney related disease”

OMR Analyst

“The increasing fund for the R&D in the diagnosis and treatment for the kidney related diseases contributing in the growth of the renal biomarker market. The research and development provide newer ways for the treatment. There are several organizations that are providing research grants for kidney related diseases. The National Institutes of Health (NIH), that is an agency of the Department of Health and Human Services provides federal funding for biomedical research on kidney disease. The National

Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) has the main responsibility for setting research significances that guide the allocation of research funding for kidney disease under the NIH. NIH funding for biomedical research related to kidney disease totaled approximately to \$564 million for 1,493 projects in the fiscal year 2015 with an increase of 2.7% from fiscal year 2014. NIDDK provided the majority (60 %) of this funding; other ICs provided the remaining 40 % of funding. In NIDDK, the average research project award was about \$345,000, and ranged from approximately \$27,120 for the smallest to \$28.5 million for the largest.

The regional analysis of the global renal biomarker includes North America, Asia-Pacific (APAC), Europe, and Rest of the world region. North America region has the significant market share due to increasing R&D funding for kidney related diseases and sparking innovation to improve the lives of people with kidney disease paving the market growth. Asia-Pacific market is expected to have the significant growth amongst all regions during the forecast period of 2018-2023. High population pool of diabetes and blood pressure is the factor that increasing the renal biomarker market in the APAC region.

The report covers:

Comprehensive research methodology of global renal biomarker market.

This report also includes detailed and extensive market overview with key analyst insights.

Exhaustive analysis of macro and micro factors influencing the market guided by key recommendations.

Analysis of regional regulations and other government policies impacting the global renal biomarker market.

Insights about market determinants which are stimulating the global renal biomarker market.

Detailed and extensive market segments with regional distribution of forecasted revenues.

Extensive profiles and recent developments of market players.
