

# The NineHertz's Teammate is a Certified Talend Data Integration v6 Expert

*The NineHertz's Teammate is a Certified Talend Data Integration v6 Expert*

CINCINNATI, OHIA, UNITED STATES, September 18, 2018 / EINPresswire.com/ -- Cincinnati, USA, September 18, 2018, /EINPresswire.com/--The NineHertz feels proud to announce the achievement of its employee for getting recognition from [Talend Data Integration](#).

The NineHertz's teammate Ms. Bhoomika Kumawat has successfully completed the Talend Data Integration v6 Certified Administrator Exam. She has completed all three levels of Talend Data Integration course i.e., Basics, Advanced, and Administration, which is a big thing in itself. With constant hard work and passion to learn new technical skills, she achieved this certification in no time. It is a prestigious moment for her and for the company too.

“

Getting acknowledgment from the Talend is a matter of honor for our teammate and for the company also”  
*Hemendra Singh, Managing director and Co-founder of The NineHertz*

The company aims at building not only the company's brand value but its employee's skillsets too. They enhance and provide a resource to develop the interpersonal and technical skills to stay ahead in the market competition.

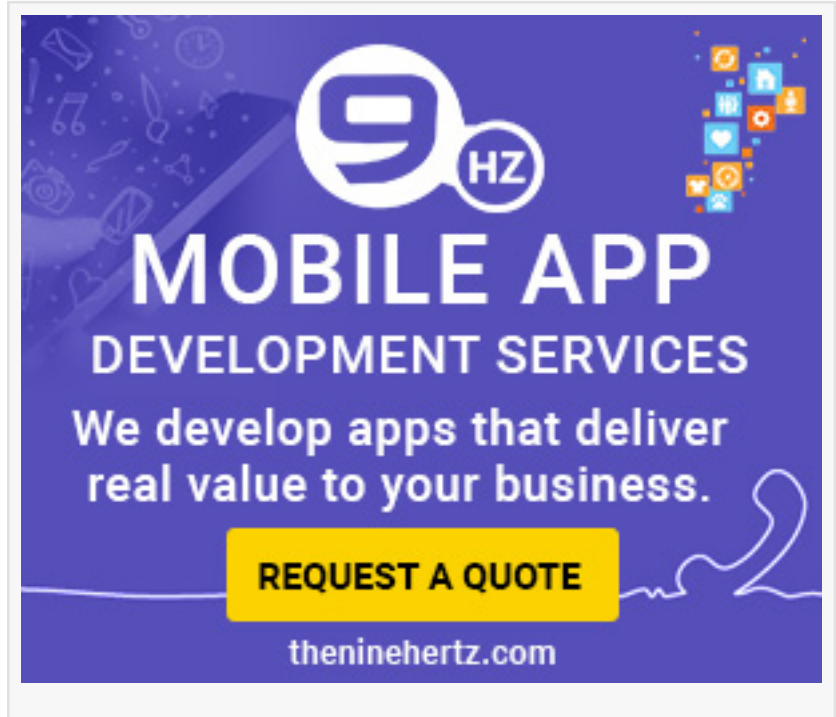

“Getting acknowledgment from the Talend is a matter of honor for our teammate and for the company also, said Hemendra Singh, Managing director and Co-founder of The NineHertz.” He also added, our employees are getting hands on new technologies and trends in the market and implementing them into the work culture in order to

deliver high-quality products to our global clients. We work for getting knowledge about every new technology that is added in the market and learn about the technical skills sets require to stay ahead in the competition.

A brief about Talend Data Integration Certification:

The Talend certification exams validate candidates' skills to implement quality projects. This course covers a deep understanding of administration topics to enhance your Talend solution skills in an enterprise setting.

This course is in three levels:

- Talend Data Integration Basics
- Talend Data Integration Advanced
- Talend Data Integration Administration

-Talend Data Integration Basic course: This course focuses on the basic features and capabilities of Studio to help you start with the Talend Studio Data Integration quickly. It helps you to learn how to build reliable and maintainable data. After the course completion you will be able to extract, format, transform and integrate data from a common database.

-Talend Data Integration Advanced course: This is the advanced level of the basic course. This course offers advanced features to give real-time experience to work in teams on projects and monitor jobs and database changes that are being done on the remote repository.

-Talend Data Integration Administration course: The course is meant to certify the systems administrators those who are in charge of installing and maintaining Talend Solutions. The course enhances your knowledge about Talend Data Integration Server, Talend Administration Center, Talend Studio, Deploying Jobs, Monitoring the System and Using GIT in Studio.

The NineHertz is aiming at achieving many milestones and the team of experts is ready to incorporate the technical skills that are required to accomplish the hi-tech projects.
