

Peer Mountain and BRD Partnership Offers Direct Access to 1.4 million BRD Wallet Users

Peer Mountain announces its partnership with BRD wallet for the upcoming Peer Mountain token sale.

LUXEMBOURG, LUXEMBOURG, September 18, 2018 / EINPresswire.com/ -- September 18, 2018 - Luxembourg, LUX - Peer Mountain, the self-sovereign identity and contracting protocol, has announced its partnership with BRD for a sale of Peer Mountain Token (PMTN) via the BRD platform to its 1.4 million mobile users commencing October 2nd 2018.

The collaboration will give BRD users the possibility to purchase PMTN in exchange for ETH via the BRD application; a unique experience that very few other token sales have enabled within a mobile environment.

Users that participate in the PMTN token sale via the BRD Wallet app will also receive BRD Tokens via an airdrop as a thank you for their commitment to both Peer Mountain and BRD Wallet.

Whilst the traditional method of depositing on a desktop is still available, the ease of depositing with a mobile application provides users with a simple, and more secure solution to purchasing PMTN. The newly launched BRD Secure Checkout process means users are protected from cut-and-paste errors and sending mistakes common to token sales.

“Launching a token sale event with a great project like Peer Mountain is very exciting for us.” said Ada Vaughan, Executive Director for Europe at BRD, “Peer Mountain is changing the way users own their information, something that we at BRD welcome. Jed and his team are creating a protocol on the blockchain that is truly revolutionary and we are proud to be a part of this token sale event.”

BRD will provide a simple process in order for users to purchase PMTN. BRD users are able to purchase ETH with all major payment cards which can then be used to buy PMTN tokens during the token sale.

“BRD is a safe and secure platform with over \$6 billion USD under its protection. Working with such an experienced team for our token sale event is something that we are extremely proud of.” Jed Grant, CEO and Founder of Peer Mountain said. “Having PMTN available on the BRD Application will allow users to purchase tokens just as they would other cryptocurrencies. I am excited about this partnership and look forward to what the token sale event will bring to Peer Mountain.”
