

Laser Photonics Announces New Sales Development Strategy

ORLANDO, FLORIDA, USA, September 19, 2018 /EINPresswire.com/ -- [Laser Photonics](#) (LP) is spreading its operations using [sales](#) representatives in metropolitan areas of industrial manufacturing. This is part of a new sales development strategy that aims to acquire the developed territory from the sales representative when it will reach a profitable and sufficient level of operations.

Initially, the target locations will be major metropolitan industrial areas with large concentration of automotive, aerospace, and shipbuilding industries. Laser Photonics will also be expanding into using international representatives in the most active geographical areas of manufacturing growth.

For more information, visit www.laserphotonics.com/rebs or call 407-477-5618.

About Laser Photonics

Laser Photonics is the industry leader in developing high-tech Fiber, UltraFast, UV, CO2 and Green laser marking, cutting, laser cleaning, and 3D laser printing equipment. Laser Photonics specializes in advanced, innovative, latest generation laser machines, processes and technologies, both stand-alone and handheld. The company has delivered cutting edge systems to industries worldwide, including defense, aerospace, automotive, biotech, medical, manufacturing, and more.
