

K2 Energy Solutions, Inc. (“K2”) continues financial transformation with appointment of new CFO

HENDERSON, NV, UNITED STATES, September 19, 2018 /EINPresswire.com/ -- [K2 Energy](#), one of the world’s leading manufacturers of Lithium-ion batteries, has announced the appointment of Robert Licha as Chief Financial Officer (CFO) for K2 Energy, succeeding Robert Horito.

“I am pleased that we have such an accomplished and seasoned Financial Officer as Robert Licha to follow Robert Horito as CFO and lead K2 Energy into our next chapter of growth,” said Sean Campbell, Chief Executive Officer for K2 Energy. “I look forward to working closely with Robert to achieve our overall strategic and financial goals as he pilots the company through its next phase of financial stewardship.”

“I’m excited to financially navigate K2 Energy at this pivotal point in the company,” said Licha. “As I’ve gotten to know K2 through the last years in my Lithium Battery career, I’ve found that it has some key ingredients for success – great customers, great products and great people.”

“Robert brings a great financial skillset and keen insight into the evolving battery and energy storage industry, and a proven track record of building financial value across multiple brands and businesses,” states Campbell.

Robert Licha joined K2 Energy after a successful career with Quallion, LLC, where he served as CFO, as well as in other executive management positions. During his tenure with Quallion, Licha was responsible for financially positioning the company as a leading Lithium Ion Battery technology company focused on Medical and Military/Defense Markets. He also brings experience from several Operational Management roles during his career.

“

Robert brings a great financial skillset and keen insight into the evolving battery and energy storage industry...”

Sean Campbell

“This is an exciting time for K2 Energy, particularly with the increased global demand for cost-effective and reliable energy storage solutions as many industries transition to new technologies to meet customer needs,” Licha said, “I

look forward to leveraging my experience as I work alongside the talented and experienced team at K2 Energy to expand the company’s existing business, positioning K2 Energy for future global growth.”

Robert Licha

K2 Energy was founded in the growing technology hub of Henderson, Nevada in 2006, and is a leading developer and producer of Lithium Iron Phosphate batteries, which are used in many advanced medical, industrial, and military applications as well as powering a variety of electric vehicles. K2 Energy produces both energy-optimized and power-optimized products, which have a multitude of consumer, product, safety, and environmental benefits compared to traditional lead acid batteries.

K2 Energy not only provides cutting edge technology in the Lithium ion energy storage market, but has a world class team of scientists and engineers with extensive knowledge and experience in all aspects of energy storage design, systems integration, manufacturing, support testing and quality control. K2 offers [inception to implementation](#) (turnkey) solutions for our customers. K2 Energy's knowledge base encompasses cell, pack and system level research, design, development, and manufacturing which allows K2 to optimize [battery solutions](#) to achieve customer goals.
