“

Increasing use of internet services is driving the growth of content delivery network market”

OMR Analyst

“The Internet has taken over the world by storm, and is influencing both the personal and private lives of many people. Organizations are now focusing more on digital platforms and how they can effectively utilize the wide spread network of internet to provide services. Content delivery network is also one of the major components of

internet services. Increasing penetration of the internet services are estimated to fuel the market growth. According to the world bank, in the year 2014, 39.7% of the population were using internet globally that has increased to 45.7% in the year 2016. Increasing smart phone market and technological advancement such as deployment of 4G and development of 5G networks are further fueling the growth of the market.”

The global content delivery network market on the basis of geography is divided into – North America, APAC, Europe, and Rest of the world. North America is estimated to be the dominating

region in the global market. North America is also one of the early adopters of the content delivery network services owing to the presence of many major market players such as Google Inc., Highwinds Network group Inc., Cloudflare Inc. and others. Europe is also showing significant growth in content delivery network market owing to increasing ownership and usage of smartphone and rising social media.
